

Brevard County Board of County Commissioners

2725 Judge Fran Jamieson
Way
Viera, FL 32940

Legislation Text

File #: 4782, **Version:** 1

Subject:

Approval, RE: Request for Development, Advertisement, and Award of Bid for Heating, Ventilation, and Air Conditioning (HVAC) utilizing Low Income Home Energy Assistance Program - American Rescue Plan Act (LIHEAP-ARPA) grant funds

Fiscal Impact:

FY 21-22 - Up to \$1,300,000 in grant funds from the Low Income Home Energy Assistance Program - American Rescue Plan Act (LIHEAP-ARPA) program will be utilized for this procurement. There will be no impact to the General Fund.

Dept/Office:

Housing and Human Services

Requested Action:

It is requested that the Board of County Commissioners (1) authorize the Development, Advertisement, and Award of Bid for Heating, Ventilation, and Air Conditioning (HVAC) services; (2) authorize the County Manager or his designee to sign contractual agreements, modifications, and amendments for services upon approval of the County Attorney and Risk Management; and, (3) authorize the County Manager to execute all necessary budget change requests.

Summary Explanation and Background:

Brevard County has received an additional allocation of \$881,932 in Low Income Home Energy Assistance Program - American Rescue Plan Act (LIHEAP-ARPA) grant funds through the Florida Department of Economic Opportunity (DEO). Unfortunately, these funds have an abbreviated expenditure date of September 30, 2022 as determined by the U.S. Department of Health and Human Services. Therefore, staff has begun identifying eligible recipients and reviewing wait lists.

DEO has authorized utilizing the funds to replace HVAC systems (and ducts if needed) for income eligible households up to \$15,000 per home. Under LIHEAP-ARPA, income eligibility is tied to a combination of income and household size. For households with eight or less members (the vast majority of applicants), income can not exceed 60% of the State Median Income (\$50,071 for a household of four). For households with nine or more members, income can not exceed 150% of poverty (\$77,025 for a household of nine).

While a portion of the entire allocation of \$1,695,422 will continue to assist with utility costs, this action will allow for additional benefits to households in order to increase long term affordability (newer, more energy efficient HVAC systems) and provide the Housing and Human Services Department (HHS) more flexibility to expend the allocated funds.
