Question applies to North Brevard County Hospital District Board

To which appointment are you applying? *

☒ Seat 4 which is appointed by the Brevard County Board of County Commissioners

Question applies to North Brevard County Hospital District Board

What do you feel the public's rights are in observing, monitoring and participating in the activities of the Hospital Board, and particularly the expenditure of funds?

Public hospitals are subject to their enabling legislation and the letter of the law in the Florida in The Sunshine Law. This means , obviously, that PMC must make every attempt to keep the public informed and aware of its growth plans, finances, and most importantly, its clinical outcomes. Public hospitals must be fully transparent about how they spend money, and whether the public actually benefits from their expenditures. Are quality goals met? Does the Hospital consistently score at a 4/5 or 5/5 level on Medicare surveys? Is money spent wisely, and are expenditures tied to results? Are compensation packages for the senior administrators reasonable, and reflective of performance, not just tenure? Do highly paid clinical practitioners remain on Staff, or do they fulfill their initial contract, and move on to greener pastures? And if they leave, why? I believe it is the responsibility of the Board of Directors to ask these questions, frequently, and in the expectation that they will be answered to the satisfaction of the residents of Brevard County.

Question applies to North Brevard County Hospital District Board

What is your philosophy on how citizen boards for publicly owned facilities should conduct their business?

Public Boards have a responsibility to be as transparent as possible, and within the constraints of good business practice, and exceptions allowed by The Sunshine Law. Moreover, the Board should not just allow public comment at Board meetings, but should encourage the public to participate in the Open Forum. Citizens who feel welcome at meetings, and believe their opinions count and are actually valued, are an invaluable asset that should be encouraged.
