**RE: Proposed Melbourne Town Homes Development
School Impact Analysis –Capacity Determination CD-2026-06**

Dear Ms. Ramos,

We received a completed School Facility Planning & Concurrency Application for the referenced development. The subject property consists of Tax Account 2702763 (Parcel ID: 27-36-14-01-* -33.01), containing approximately 14.37 acres in District 5, Brevard County, Florida. 86 single family townhome units are planned for completion.

The calculations used to analyze the prospective student impact are consistent with the methodology outlined in Section 13.2 and Amended Appendix “A”-School District Student Generation Multiplier (approved April 11, 2022) of the *Interlocal Agreement for Public School Facility Planning & School Concurrency (ILA-2014)*. The following capacity analysis is performed using capacities/projected students as shown in years 2026-27 to 2030-31 of the *Brevard County Public Schools Financially Feasible Plan for School Years 2025-26 to 2030-31* which is attached for reference.

Single Family Units		86	
Students Generated	Student Generation Rates	Calculated Students Generated	Rounded Number of Students Generated
Elementary	0.24	20.64	21
Middle	0.07	6.02	6
High	0.12	10.32	10
Total	0.43		37

School Board of Brevard County

2700 Judge Fran Jamieson Way • Viera, FL 32940-6699
Dr. Mark J. Rendell, Ed.D., Superintendent

At the October 20, 2025, Capital Outlay Committee (COC) meeting, committee members reviewed and discussed methods to incorporate charter school capacity into the district's school concurrency review process. The COC unanimously approved using the *Brevard Charter Schools From Analysis, Fall Final Membership Count*, which is published in the District's Student Accommodation Plan annually, to determine charter percentages. The Charter School From Analysis is attached for your reference.

The following analysis is performed using the annually published table from the District's *Student Accommodation Plan*, Section 4, the *Brevard Charter Schools: From Analysis, Fall Final Membership Count*, which illustrates the number of students from each traditional school concurrency service area (CSA) (attendance boundary or zone) attending the district's public charter schools and the total percentage of students from each school attendance boundary currently attending charter schools. The percentages shown are the actual percentage of resident public school students attending charter schools from each school CSA. The number of students highlighted in green indicates the number of students expected to attend Charter schools which are subtracted from the projected number of students affecting the BPS traditional schools affected by the development.

School Board of Brevard County

2700 Judge Fran Jamieson Way • Viera, FL 32940-6699
Dr. Mark J. Rendell, Ed.D., Superintendent

At this time, Sabal Elementary School, Lyndon B. Johnson Middle School and Eau Gallie Senior High School are projected to have enough capacity for the total of projected and potential students from the Melbourne Town Homes development.

This is a **non-binding** review; a *Concurrency Determination* must be performed by the School District prior to a Final Development Order and the issuance of a Concurrency Evaluation Finding of Nondeficiency by the Local Government.

We appreciate the opportunity to review this proposed project. Please let us know if you require additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Karen M. Black".

Notes

- FISH Capacity is the sum of the factored permanent capacity and the factored relocatable capacity. Permanent and relocatable capacities for 2025-26 are reported from the FISH database as of December 5, 2025.
- Student Membership is reported from the Fall Final Membership Count (10/10/2025).
- Davis Demographics SchoolSite Enrollment Forecasting Extension for ArcGIS estimates future student populations by analyzing the following data:
 - Development Projections from Brevard County Local Government Jurisdictions
 - Brevard County School Concurrency Student Generation Multipliers (SGM)
 - Fall Membership student addresses and corresponding concurrency service areas
 - Student Mobility Rates / Cohort Survival Rates
 - Brevard County Birth rates by zip code
- Davis Demographics estimates are then adjusted using the following factors:
 - PK (Pre-Kindergarten) and AH (daycare for students with infants) enrollment number are assumed to be constant
 - Current From/To attendance patterns are assumed to remain constant.
 - Nongeocoded student addresses are assumed to continue in their attendance schools.
 - Charter School Growth.
- In order to maintain utilization rates lower than the 100% Level of Service, Permanent Capacity and Relocatable Classrooms are assumed to add future student stations as necessary.
- If student projections are accurate, the school board could add additional classroom capacity, implement attendance boundary changes, or add relocatable classrooms. A south area elementary school is planned for the future growth, but the exact timing hasn't been established. If only relocatable classrooms are used for the next 5 years, the following changes would be needed to accommodate projected growth. These schools are being analyzed for the best options to accommodate additional students. Providing relocatable classrooms is subject to an appropriation by the School Board.
 - Primary relocatable classrooms (Grades K-3) = 18 student stations, Intermediate (Grades 4-8) relocatable classrooms = 22 student stations, and High School (Grades 9-12) relocatable classrooms = 25 student stations
- For school year 2026-27, a total of 2 intermediate classrooms are projected for Riviera (1), and Viera (1) Elementary Schools.
- For school year 2027-28, a total of 3 intermediate classrooms are projected for Riviera (1), and Viera (1) Elementary Schools and Viera Middle School (1).
- For school year 2028-29, a total of 4 intermediate classrooms are projected for Jupiter (2), and Viera (1) Elementary Schools and Viera Middle School (1).
- For school year 2029-30, a total of 8 intermediate classrooms are projected for Jupiter (3), and Viera (2) Elementary Schools and Southwest (2) and Viera (1) Middle Schools.
- For school year 2030-31, a total of 8 intermediate classrooms are projected for Jupiter (3), and Viera (2) Elementary Schools and Southwest (3) Middle School.
- A classroom addition is planned to open at Westside Elementary School for 2026-27. The factored capacity is adjusted for the proposed 216 student stations.
- A classroom addition is planned to open at Bayside Senior High School for 2027-28. The factored capacity is adjusted for the proposed 800 student stations.
- A classroom addition is planned to open at Sunrise Elementary School for 2028-29. The factored capacity is adjusted for the proposed 350 student stations.
- The requirement that level-of-service standards be achieved and maintained shall not apply if the proportionate share process set forth in Section 163.3180(6), F.S., is used.
