Utility Services Barefoot Bay Utility fund is recognizing \$600,000 in unbudgeted balance forward that is available due to supply chain issues causing long lead times for materials. The recognized funding will be used to complete state mandated water line testing in Barefoot Bay and to complete the Barefoot Bay Meter replacement project. It is estimated that Barefoot Bay still has 4,000 meters that have exceeded their 10-year life span and need to be replaced. These funds will secure various equipment such as meters, check valves and meter boxes as they become available.
