**RE: Proposed Lazy River Investment Development
School Impact Analysis – Capacity Determination CD-2025-16**

Dear Mr. Body,

We received a completed *School Facility Planning & Concurrency Application* for the referenced development. The subject property is Tax Account 3008729 (Parcel ID: 30G-38-19-HP-*-10), containing a total of approximately 20.39 acres in District 3, Brevard County, Florida. The proposed development includes a maximum of 7 Single-family units. The School Impact Analysis of this proposed development has been undertaken, and the following information is provided for your use.

The calculations used to analyze the prospective student impact are consistent with the methodology outlined in Section 13.2 and Amended Appendix "A"-School District Student Generation Multiplier (approved April 11, 2022) of the *Interlocal Agreement for Public School Facility Planning & School Concurrency (ILA-2014)*. The following capacity analysis is performed using capacities/projected students as shown in years 2025-26 to 2029-30 of the *Brevard County Public Schools Financially Feasible Plan for School Years 2024-25 to 2029-30* which is attached for reference.

At this time, Sunrise Elementary School and Bayside High School are not projected to have enough capacity for the total of projected and potential students from the Lazy River Investment development. Because there is a shortfall in the concurrency service areas of development, the capacity of adjacent concurrency service areas must be considered.

The adjacent elementary school concurrency service areas are Westside, Port Malabar and Columbia Elementary Schools. The adjacent middle school concurrency service area is Stone Magnet Middle School. The adjacent high school concurrency service area is Palm Bay Magnet High School. A table of capacities of the adjacent school's concurrency service areas that could accommodate the impacts of the Lazy River Investment development is shown on the following page:

An Equal Opportunity Employer

School Board of Brevard County

2700 Judge Fran Jamieson Way • Viera, FL 32940-6699

Dr. Mark Rendell, Ed.D., Superintendent

At this time, considering the adjoining concurrency service areas, **there is sufficient capacity for the total projected student membership to accommodate the Lazy River Investments development.**

This is a **non-binding** review; a *Concurrency Determination* must be performed by the School District prior to a Final Development Order and the issuance of a Concurrency Evaluation Finding of Nondeficiency by the Local Government.

We appreciate the opportunity to review this proposed project. Please let us know if you require additional information.

Sincerely,

Karen M. Black, AICP

Notes

- FISH Capacity is the sum of the factored permanent capacity and the factored relocatable capacity. Permanent and relocatable capacities for 2024-25 are reported from the FISH database as of November 13, 2024.
- Student Membership is reported from the Fall Final Membership Count (10/14/2024).
- Davis Demographics SchoolSite Enrollment Forecasting Extension for ArcGIS estimates future student populations by analyzing the following data:
 - Development Projections from Brevard County Local Government Jurisdictions
 - Brevard County School Concurrency Student Generation Multipliers (SGM)
 - Fall Membership student addresses and corresponding concurrency service areas
 - Student Mobility Rates / Cohort Survival Rates
 - Brevard County Birth rates by zip code
- Davis Demographics estimates are then adjusted using the following factors:
 - PK (Pre-Kindergarten) and AH (daycare for students with infants) enrollment number are assumed to be constant
 - Current From/To attendance patterns are assumed to remain constant.
 - Nongeocoded student addresses are assumed to continue in their attendance schools.
 - Charter School Growth.
- In order to maintain utilization rates lower than the 100% Level of Service, Permanent Capacity and Relocatable Classrooms are assumed to add future student stations as necessary.
- If student projections are accurate, the school board could add additional classroom capacity, implement attendance boundary changes, or add relocatable classrooms. A south area elementary school is planned for the future growth, but the exact timing hasn't been established.
 - If only relocatable classrooms are used for the next 5 years, the following changes would be needed to accommodate projected growth. These schools are being analyzed for the best options to accommodate additional students.
 - Primary relocatable classrooms (Grades K-3) = 18 student stations, Intermediate (Grades 4-8) relocatable classrooms = 22 student stations, and High School (Grades 9-12) relocatable classrooms = 25 student stations
 - For school year 2025-26, a total of 13 intermediate classrooms are projected for Jupiter (2), Riviera (2), Sunrise (2), and Westside (4) Elementary Schools and Viera Middle School (3).
 - For school year 2026-27, a total of 9 intermediate classrooms are projected for Jupiter (2), Riviera (2), Sunrise (2), and Westside (3) Elementary Schools.
 - For school year 2027-28, a total of 15 intermediate classrooms are projected for Jupiter (2), Riviera (3), Sunrise (4), Turner (1) and Westside (5) Elementary Schools and 3 High School relocatable classrooms are proposed for Bayside High School.
 - For school year 2028-29, a total of 29 intermediate classrooms are projected for Columbia (2), Jupiter (2), Riviera (2), Sunrise (5), Turner (5), and Westside (5) Elementary Schools, Southwest Middle School (8) and 6 High School relocatable classrooms are proposed for Bayside High School.
 - For school year 2029-30, a total of 17 intermediate classrooms are projected for Columbia (2), Jupiter (2), Sunrise (5), Turner (3), and Westside (4) Elementary Schools, Southwest Middle School (1) and 9 High School relocatable classrooms are proposed for Bayside.
- A classroom addition is planned to open at West Melbourne School of Science for 2025-26. The factored capacity is adjusted for the proposed 106 student stations.
