

Request for Dock Setback Variance

31 0Julu 2025

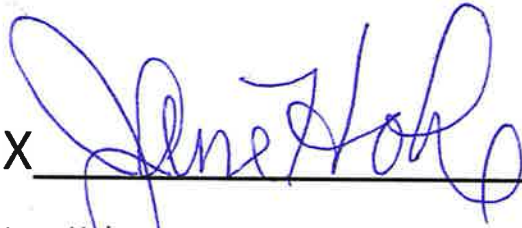

Re: Application 23BC14022

Jane,

We have talked about this dock and set-back variance on several occasions. I was told that a letter from my neighbors could help me close this application with the county. I am currently working their variance hardship worksheet to present to the county board, which will include before and after dock photos, signed letters from you as well as Jon and Chantho Sheehan. If you do not have any objections with the setback to my property, would you mind signing this letter?

Thank you,
