Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide a brief overview of your background and expertise related to the following committee member requirements: Four-year postsecondary academic degree (B.S. or equivalent) in biological or environmental sciences or demonstrated professional expertise (minimum of 6 years) in a closely related conservation field such as ecosystem management, natural resources conservation, aquatic biology, field ecology, marine biology, botany, geology, hydrology, fire ecology, natural areas management, human use and recreation in natural areas, science education, or natural area sanctuary design. OR a background and expertise in either business, finance or real estate.

Master's Degree UCF Public Admin, BA in Multinational Business FSU, just completed Geology course at EFSC and enrolled in Environmental Science, former Financial Advisor and Business Owner at Bowman Financial. Former board member of Babcock Redevelopment Agency, Melbourne. Avid naturalist, hiker and steward of the environment seeking balance, compromise and coordination between progress, business development and the natural world.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

I have lived in Brevard for over 35 years and I strive to understand the needs between conservationist and the ability for the county to remain tax efficient. Our county has many ecosystems that attract many different types of enthusiasts. My goal is to sustain natural places in partnership with government and business entities to promote Brevard and maintain our beauty and opportunities for growth.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

Not at this time, however, I am recently retired and hope to give back to my community.

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

No

Please explain your interests and experiences.

To promote a balance between business needs and opportunities with government and nature. We can do this with comprehensive planning, expertise and knowledge. To facilitate communication and cooperation amongst these parties and help find solutions that will fit everyone's needs.

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

Please see above.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

OR a background and expertise in either business, finance or real estate.

B.S. University of Florida in Interdisciplinary Studies in Landscape and Nursery Management with a minor in Agribusiness (Environmental Horticulture Department). Studied primarily landscape management in regards to urban and residential areas, but studies included soil science, plant id, entomology, etc similar to all horticulture and plant science majors.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

Brevard has many of the ecosystems that were literally part of my backyard at Tosohatchee State Reserve, 27,000 acres of seasonal creeks, pine forests, cypress swamps, cabbage palm hammocks, and freshwater marshes and I observed much of the management of those with my Father through his work there and through my ecology projects in 4-H including control burns, removal of problem wildlife (feral hogs), filling in canals to restore wetlands, etc. Since moving to Brevard after college I have been more interested in learning more about lagoon management and have been following publications on how to mitigate runoff and strategies to improve water sources that empty into the lagoon primarily through changes in existing homeowner, new construction, and business landscape practices. Other than the few years I was at OneSource at the Grand Cypress I have not had hands-on experience with managing landscapes (there were large natural areas adjacent and within the property that we needed to make sure our work did not disrupt) it is only observed practices and formal education.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

no.

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

no.

Please explain your interests and experiences.

I have always been a nature fan and was in 4-H ecology for many years starting at age 7 and competed and did quite well in ecology competitions all through my school years. I enjoy both structured more developed parks as well as very primitive/wild parks and hikes. I practice IPM on my own property and am an avid gardener and plan to start the Florida Friendly Landscaping Professional Certification soon just for fun. I am a nerd for plants and ecology and reading IFAS publications from UF about current research especially about invasive species mitigation is something I do regularly for fun. I have a 5 year old and have enjoyed teaching him about nature and the environment and often share with friends and customers best landscape practices to be successful gardeners while protecting the environment around their properties.

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

BS UF Interdisciplinary Studies in Landscape and Nursery Management. Member of Melbourne Regional Chamber 13 years (previous positions: Board Member, Small Business Council Chair, Women of Excellence Steering Committee, Engaged Young Professionals Steering Committee) and past president of the Florida State Florists Association. Pesticide ID card holder at both companies and head of Pesticide programs. Current owner of Roses Are Red (2009) and Violets In Bloom (2013) Florists, brick and mortar businesses in Indialantic and Melbourne. I have kept up with following some of the University of Florida IFAS publications for landscape and the environment to stay up to date with current research and consider myself a pragmatic environmentalist. My family background includes that my father worked for the State of Florida Park Service for 32 years and I lived in parks (in ranger housing) for most of my formative years with the bulk of it at Tosohatchee State Reserve in Christmas (since been renamed and now managed by Fish and Wildlife) that strongly influenced my conservation worldview. I feel that I have a well-rounded background that includes some technical knowledge of natural ecosystems and how developed areas can and do influence those natural areas. My business background allows me to balance science with practical considerations which is my understanding the primary purpose of this committee as it makes recommendations. And I have been on enough different types of committees I am comfortable working on committees within their specific guidelines and have a general understanding of Sunshine Law.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

n/a, I can walk in waders several miles through marshes or swamp without issue.

MBA in Health Services Management and Marketing from Golden Gate University, San Francisco BA in Anthropology and Marine Biology, University of California, San Diego (UCSD) President, CEO and Founder of Airon Corporation, a manufacturer of critical care medical ventilators

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

Lived in Sunnyland Beach on a deep water canal since 1990.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

No

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

No

Please explain your interests and experiences.

My business expertise is in life support systems and working in a heavily regulated industry (FDA / ISO). My college education was in the sciences and I have always taken a great deal of interest in the environment. Early in college I wanted to enter marine biology which is why I choose UCSD in La Jolla, CA so I could learn at Scripps Institution of Oceanography. I ended up with an Anthropology degree and getting into respiratory medicine.

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

I think my combination of education and successful business operations over the last 30 years gives me a unique perspective on what makes sense and what does not. Decisions need to pass the sniff test or they do not get past me. I am passionate about where we live and the need to get it back to where it was before we destroyed it.

PROFESSIONAL SUMMARY

- ◆ Experienced leader of diverse groups within the medical device environment
- ◆ Demonstrated skills in domestic and international marketing
- ◆ Proven ability to match technology to market analysis and customer needs
- ◆ Clinical expertise in critical care and pulmonary medicine

EXPERIENCE

1997 to present **President, CEO and Founder**
Airon Corporation

Founded a medical device company based upon technology developed at the University of Florida. The technology is pure pneumatic control for ventilation of critically ill patients.

- Received US Patent and FDA approvals of the first product in 2003. Started production then.
- The company became ISO 13485 certified in 2007. Began international sales then.
- Four products are now actively sold around the world in 50+ countries.
- Recently signed a license agreement with General Electric Healthcare to provide our adult ventilator for sale to FEMA.

1993 to 1997 **Marketing and Business Consultant**
Clinical Marketing Resources, Melbourne Beach, Florida

Provide services to medical device manufacturers. These services include business management and practical, customer focused marketing, product development and regulatory affairs support.

- For Novamatrix Medical Systems, a leader in non-invasive critical care diagnostic systems. Guided new product development and transition from older technology to their new pulmonary monitors. Coordinated product clinical testing and regulatory affairs for the product line
- For Respirationics, the leader in non-invasive ventilator support systems. Analyzed market opportunities for new and developing medication and gas delivery products. Assisted with implementation of electronic Internet communication.
- For Becton Dickinson, the major manufacturer of medication delivery systems. Assisted with the establishment of new electronic communication (Internet) interfaces for sales, marketing and research activities. Analyzed alternate site sales and marketing opportunities.

1984 to 1993 **General Manager**
Hamilton Medical, Inc., Reno, Nevada

Total Profit & Loss responsibility, reporting to the President of Hamilton Medical AG (Swiss parent company). Worked from the company's inception; starting as Product Manager, then direct customer sales, sales / marketing management and ending as General Manager. Achieved the

following goals:

- Initially as Product Manager, worked with R&D in Switzerland to refine the Company's first product, Veolar, to meet the needs of USA customers. Later guided the design of three other life support products: Leonardo Monitor, Max Ventilator and Amadeus Ventilator.
- Coordinated marketing activities including the development of marketing strategies, sales tools and customer support materials.
- Defined and developed strategic business plans / budgets and implemented operations, staying within established targets. During this time the company grew to sales over \$ 5 M.
- Established and managed the domestic sales network of 4 regional managers, 4 dealers, 2 direct sales persons and 4 independent representatives.
- Located, established contractual agreements, and trained dealers in Canada and Australia
- Negotiated national purchasing contracts with major government and private buying groups including the VA and University Hospital Consortium.
- Managed quality assurance and regulatory affairs systems resulting in marketing approval of 4 life support products with no adverse FDA rulings.

1975 to 1984

Director, Respiratory Care Service

San Francisco General Hospital; University of California, San Francisco

Established and directed the professional and administrative operation of the Respiratory Services at this university based county hospital.

- Provided clinical care to patients in the Intensive Care Units.
- Performed lectures and consultant services to private and public medical organizations.
- Supervision of personnel and operations in the Respiratory Care Service.
- Participated in primary research into new therapeutic techniques.
- Designed, developed and modified ventilatory systems to include advanced technologies.

EDUCATION

Master of Business Administration: Golden Gate University; San Francisco, California

Bachelor of Arts: University of California, San Diego; La Jolla, California

PROFESSIONAL CREDENTIALS and AFFILIATIONS

Registered Respiratory Therapist

Professional references and bibliography available upon request

B.S. Environmental Science with a concentration in fish and wildlife management.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

Brevard has some very unique and important ecosystems, from numerous types of wetlands, and coastal estuaries, to flatwoods and scrublands. These lands each have their own unique requirements to maintain prime habitats, combined with the proximity of many of these lands to residential and commercial areas, management techniques must vary depending on the location but may include prescribed burns, or mechanical removal of trees and larger flora to support species like the scrub jay. Also important is the continuity of conservation lands, so that fauna can move safely between different conservation areas.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

No

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

No

Please explain your interests and experiences.

Conservation of wild lands and the protection of species have long interested me and is why I pursued my B.S. in Environmental Science while on active duty with the Coast Guard. The extensive amount of conservation lands in and around Brevard County is one of the reasons we decided to retire here after I left the Coast Guard this past year. Now, being retired and a disabled veteran, I don't need a full-time job, and being a member of this committee would allow me to work in a field of great interest to me while also serving my community. During my time in the Coast Guard I was frequently involved in environmental protection. I spent seven of my years as an installation commander, where I was responsible for decisions that directly impacted the environment on my installations and around them. Finally, throughout my career, I worked extensively with other government agencies, commercial interests, and NGOs on environmental matters, building extensive experience in how different organizations work and finding ways to work together.

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

22 years in the US Coast Guard, B.S. in Environmental Science, Former member of Lions Club international, current member of the North Brevard Rotary Club, Former board member and President of the Board for SafeQuest Solano (Rape crisis center in California), former volunteer at the North Carolina Aquarium.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

I am a disabled veteran, but do not require any accommodations.

Jason P. Miller

Officer in Charge, U.S. Coast Guard Station Wrightsville Beach | jason.p.miller@outlook.com | 707-389-0003

Education

American Military University, Charles Town, WV

February 2019

Bachelor of Science in Environmental Science Focus on Fish and Wildlife Management, GPA 3.89

Relevant Professional Skills

Expert in all aspects of boat operations with experience on vessels from 12' to 110', basic boat maintenance, marine navigation, trailering operations, operational risk management - developing and implementing risk mitigation measures for inherently dangerous operations, curriculum development, doctrine, and policy development.

Employment

United States Coast Guard, Various Duty Stations September 2000 – October 2022

Officer in Charge, Station Wrightsville Beach, NC May 2019 – June 2022

- Led, supervised, and trained 23 active duty and 18 reserve Coast Guard personnel across all aspects of Coast Guard missions including search and rescue, law enforcement, and marine environmental protection.
- Managed \$120,000 annual operating budget, \$5 million in operational assets, and four acres of federal property and facilities.
- Significantly increased interagency cooperation throughout the area of responsibility, resulting in enhanced maritime domain awareness, and reduced response times during emergency operations.
- Regularly presented information on Coast Guard operations to a diverse array of audiences, tailoring presentations to meet the needs of different audiences.
- Established and maintained unit-level instructions and policies to comply with Federal, State, and local laws.
- Responsible for overseeing facilities' environmental compliance for HAZMAT storage, spill response, environmental health, etc.
- Progressively set policies and established procedures to limit the impact of COVID-19 resulting in the unit maintaining operational effectiveness throughout the pandemic.
- Oversaw and coordinated efforts of approximately 50 Coast Guard Auxiliary volunteers.

Executive Petty Officer, Cutter Moray, Cape Canaveral, FL June 2017 - May 2019

- Deck Watch Officer, responsible for safe navigation and operation of 87' patrol vessel.
- Oversaw \$130,000 and \$4.5 million dollars in assets.
- Lead Law Enforcement Officer conducting training and operations for living marine resources, recreational boating safety, and alien migrant interdiction operations.

Officer in Charge, Station Rio Vista, CA October 2013 - June 2017

- Led, supervised, and trained 35 active duty and 20 reserve Coast Guard members across all aspects of Coast Guard missions including search and rescue, law enforcement, and marine environmental protection.
- Coordinated interagency operations across six counties covering more than 1,500 miles of the California Delta.
- Participated in a number of conservation programs including the Save the Delta public education initiative, and assisting U.S. Fish and Wildlife with salmon stocking in the Sacramento River.
- Responsible for overseeing facilities' environmental compliance for HAZMAT storage, spill response, environmental health, etc.
- Oversaw and coordinated efforts of approximately 150 Coast Guard Auxiliary volunteers.

Executive Petty Officer, Station Hobucken, NC June 2012 - October 2013

- Funds Manager and property officer for \$95,000 annual budget, \$4 million dollars in operational assets, and eight acres of federal land and associated facilities.

- Training Officer for 23 active duty and 10 reserve personnel.

<i>Operations and Training Officer, Station Charleston, SC</i>	June 2008 - June 2012
<i>Operations and Training Officer, Cutter Cushing, San Juan, PR</i>	June 2006 - June 2008
<i>Operations and Training Officer, Station Saginaw River, MI</i>	June 2002 - June 2006
<i>Deck Seaman, Cutter Nantucket, Key West, FL</i>	November 2000 - June 2002
<i>Recruit Basic Training, Cape May, NJ</i>	September 2000 - November 2000

Awards, Honors, Certifications

Coast Guard Awards -

- 7 Good Conduct Medals
- 3 Commandant Letters of Commendation
- 2 Achievement Medals
- 2 Commendation Medals

How long have you been a resident of Brevard County?

50 years

To which Commissioner are you applying?

N/A

Interests & Experiences

Please tell us about yourself and why you want to serve.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

The EEL Selection and Management Committee serves as an expert volunteer scientific advisory committee to the County Commission on all issues involving the acquisition and management of environmentally endangered lands with the EEL Program protected area network in Brevard County. **The committee also has two seats for experts in the fields of business, finance or real estate.** Please complete the following information and **include your resume as an attachment** when submitting this application for consideration as a volunteer member of the Selection and Management Committee.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your willingness o serve on the committee for a minimum term of two (2) years.

I agree that I am willing to serve on the committee for two years

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your ability to attend meetings in-person

You agree that you are available to attend in-person meetings

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide a brief overview of your background and expertise related to the following committee member requirements: Four-year postsecondary academic degree (B.S. or equivalent) in biological or environmental sciences or demonstrated professional expertise (minimum of 6 years) in a closely related conservation field such as ecosystem management, natural resources conservation, aquatic biology, field ecology, marine biology, botany, geology, hydrology, fire ecology, natural areas management, human use and recreation in natural areas, science education, or natural area sanctuary design. OR a background and expertise in either business, finance or real estate.

I am a fourth generation Florida land developer. I have bought and sold 10s of millions of Florida real-estate. As a developer, I have delt with all types of regulatory issues the most challenging being environmental ones. That said my passion has always been in the area of conservation. To that end I served on the 201-208 advisory committee in the seventies. The work of that committee resulted in the county ending the discharge of primary treated sewage into the IRL. Was instrumental in Passing the Indian River Lagoon Act that caused the elimination of wastewater into the IRL.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

As a developer, as a member of the SJRWMD, and as a trustee of the Florida Nature Conservancy, I have walked or floated on many miles of Brevard County with some of the most respected ecological professionals in Florida.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

n/a

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

Development permitting

Mr. Jim T Swann

Please explain your interests and experiences.

see above

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

- Vision and mission setting - Strategic planning and execution in a very technological advanced, complex and hypercompetitive industry. (Semiconductor devices, i.e. "computer chips") - Organizational/team development through relationship building - Presentation and communication skills, including to numerous C-Suite executives and a vast number of industry conference presentations - Passion for driving compromise that allows progress to be made in very complex situations - Experience in working under pressure within multi-variable, multi-faceted and complex environments/situations. (like biological systems are) - Key supplier to and subsequent key relationships with top business employers in Brevard County, i.e. Northrop Grumman, L3Harris, OneWeb, .etc.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

Have observed scrub management firsthand and have gone through an investigation of it from a personal perspective. Enjoy the outdoors regularly and have at least practical observations and constant curiosities of what is going on around me.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

N/A

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

N/A

Joshua A Broline

Please explain your interests and experiences.

I have been in the area for just over 20yrs and am very passionate about growing this area in a healthy and sustainable manner. I love being outdoors and have seen firsthand how we can have responsible development while taking care of the environment we find ourselves in. I am also very interested in seeing to it that the scrub sanctuaries thrive for the foreseeable future, to enjoy for generations to come! Please feel free to reach out to Mr. Keith Winsten and Mr. John Tobia if you would like some insight on my character and how I interact with others; assuming they recall our interaction from about a year ago.

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

20+ years in a highly competitive and fast-paced work environment and industry. Built sound relationships with local technology and defense businesses that may be of use of the committee to better communicate what EEL/SMC is doing in the area, i.e. enhance company's recruitment efforts and drive healthy/sustainable growth for all, including the environment/animals around us.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

SENIOR DIRECTOR, HIGH RELIABILITY BUSINESS DIVISION

PROFILE Effective leader with proven ability to build a world class team; develop and execute strategic plans:

- Track record of driving business unit revenue/margin growth, domestic and internationally
- In-depth knowledge of business planning, market research, strategic planning, & product launch campaigns
- Greater than 20 years of collaborative experience w/ executive staff, cross functional R&D and sales teams
- Fast learner with ability to quickly adapt and take advantage of change

PROFESSIONAL EXPERIENCE

RENESAS (INTERSIL) COPORATION, Palm Bay, FL

2002 – Present

Senior Director (2022 – Present)

Responsible for managing and growing a domestic and international focused marketing and applications team for the space and defense business unit. Built a high caliber team to scale our product offerings, expanding our servable market for various payload subsystems and bus architectures. Increased and cultivated critical industry partnerships, customer (Primes/Subs), and key government level relationships.

Key Achievements

- Responsible for >\$100M Space & Defense business unit that has achieved 11% CAGR the last 4yrs, w/ ~90% SM
- Secured >\$190M of new product revenue, which is now >50% of the Space business yearly revenue
- Drove initiative to establish and execute a strategy for the industry's first IC solutions for New Space applications

Strategic Marketing Manager/Director (2007 – 2021)

Marketing and P&L responsibility for a wide variety of product lines in different product life cycle stages. Developed and drove strategic plans and product roadmaps; collaboratively created and presented business plans to executive staff. Proficient in space industry system needs, space environmental effects, industry standards, specifications, and customer relationships. Increased responsibilities over 10 years in marketing, including managing staff. Worked with employees to build on their strengths and manage their weaknesses. Provided M&A recommendations to executives.

Key Achievements

- Proficient in the business plan process and gaining executive level approval and support
- Effective in establishing/growing partnerships and engaging customers direct or through the distribution channel
- Led major Tier 1 product launches and promotions, resulting in substantial revenue growth
- Responsible for a variety of precision analog, interface, & power management products, including power modules

Lead Product Engineer (2002 – 2007)

Responsible for managing/leading cross-functional development teams from product concept, design, qualification, market launch, and manufacturing support. Statistical analysis of IC test results for setting manufacturing test limits, datasheet specifications, and product qualification testing. Heavy involvement in IC failure analysis on product/process qualifications, customer field failures, and generating 8Ds; executing lab evaluations as needed.

Key Achievements

- Led development teams to successfully release the company's first two handheld power management products, that formed the basis for the business unit's revenue growth, >\$60M
- Experience with a diverse set of products from several different analog product lines

EDUCATION

FLORIDA INSTITUTE of TECHNOLOGY, Melbourne, FL

Masters in Business Administration, 2008

- GPA 4.0/4.0, Delta Mu Delta International Honor Society Treasurer (2007-2008)

UNIVERSITY of CENTRAL FLORIDA, Orlando, FL

Bachelor of Science in Electrical Engineering, 2002

OTHER

- Many hours of business leadership, communication, negotiation, and presentation training
- Over 10 published articles in established industry magazines, numerous product innovation industry awards
- In the process of renewing secret clearance, sponsored by the NRO

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide a brief overview of your background and expertise related to the following committee member requirements: Four-year postsecondary academic degree (B.S. or equivalent) in biological or environmental sciences or demonstrated professional expertise (minimum of 6 years) in a closely related conservation field such as ecosystem management, natural resources conservation, aquatic biology, field ecology, marine biology, botany, geology, hydrology, fire ecology, natural areas management, human use and recreation in natural areas, science education, or natural area sanctuary design. OR a background and expertise in either business, finance or real estate.

I am a residential rental housing provider and principal of Gibbs Residential Properties, LLC (Florida). My business interests are focused on condominium housing in Florida and Colorado, and 100% aimed at providing workforce housing. I have served on multiple condominium association boards of directors. Since 2009 I have served as president of a 224-unit condominium association located in Pasco County, FL. Additionally, I worked for 30+ years in the Software Industry, serving in various professional roles that emphasized technical, scientific, business and finance skills. Please refer to my attached resume for further details. My education background includes a B.S. in Business and M.S. in Computer Science, both earned at Florida State University.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

Over the past 2 years, since returning to my home state of Florida, I have spent considerable time exploring and studying our public lands, particularly the EEL properties. As a longtime environmental quality and conservation advocate, I enjoy studying about the various Florida plant communities and habitats (scrub, pine flatwoods, hammocks, wetlands). I have enjoyed reading several books regarding ecosystems and Florida habitats, particularly by authors Doug Tallamy, Craig Huegel, Ginny Stibolt, and Stacey Matrazzo. Additionally, I have personally spent considerable time and effort to restore a healthy ecosystem to our Merritt Island home property of about 4 acres. Through this experience I learned firsthand about the serious negative impacts caused by invasive species - particularly brazilian pepper - and poor water quality due to excess nutrients. After just 2 years we are already seeing major improvements to the health of our home property ecosystem.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

no

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

no

Please explain your interests and experiences.

My interests include all things outdoors enjoying nature by way of low-impact adventures (hiking, biking, rock climbing.) As a Florida native, I was fortunate to grow up during a time when nature appeared abundant. Now, I wish to help preserve some of Old Florida for the benefit of future generations.

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

My background and professional experience are explained above and on my attached resume. My primary business is a rental housing provider and I am the principal of Gibbs Residential Properties, LLC. I believe that my contribution to the EEL Advisory Board includes a skill set that would be complimentary to the scientific expertise already provided by the current highly-qualified board. My background is not in the biological or environmental sciences - I am a layperson in those disciplines. I believe that my professional business and financial experience, pragmatic approach to problem solving combined with a strong interest in public land conservation would be a great addition to the current board.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

MALCOLM E. MCLOUTH

INTRODUCTION

Malcolm (Mac) McLouth is a professional engineer registered in several states with 34 years of design and management experience in the environmental engineering profession. Currently he is the Executive Vice President of Stottler Stagg & Associates, Architects, Engineers, Planners, Inc., a large A/E firm headquartered in Cape Canaveral. Previously he was the Chief Air Pollution Control Engineer for the City of Minneapolis and later as a Manager in the Environmental Health field at the Kennedy Space Center. He also possesses national certifications as a Registered Industrial Hygienist by the Environmental Engineering Intersociety Board.

Mac has been active in the political arena and has held the elective office of Commissioner of the Canaveral Port Authority for the past 25 years. The leadership that Mac has provided over this period has helped contribute to the growth and phenomenal success that Port Canaveral has enjoyed. His background in the environmental engineering and planning fields has influenced Mac to be the major proponent for the Port to Port Utility Corridor which he will discuss. Currently Mac is the Vice Chairman of the Canaveral Port Authority and is the Chairman of the Port to Port Consultant Advisory Committee.

The Key to a Sustainable Port is Smart Planning

As Brevard's Space Industry is facing a downsizing, the importance of Port Canaveral as a source of economic development and jobs is essential. No longer of just local importance, Port Canaveral is East Central Florida's outlet to the sea.

As Port Canaveral continues to develop, 10 years experience on the East Coast Central Florida Regional Planning Council has given Mac a keen appreciation of what is in store for the Port's natural trade area. In particular, landslide transportation congestion, lack of area to expand and competition from other Florida ports, are planning issues to be addressed. Without a clear understanding of future growth challenges, a sustainable Port development will not occur.

In addition, understanding the need to continue expansion of the Port's infrastructure to meet the changing maritime business environment, enhance Port security and develop a unique commercial complex on the south side, are further challenges facing today's Port Commissioners. For this reason, Mac's additional experience as both Commissioner for 40 years and staff leadership for 8 years is a unique offering to the voter.

As demonstrated in the past, Mac will walk his talk. Rather than relying on green literature to project an environmental commitment, Mac rides his bike. Honk if you see him on A1A using a quicker-picker-upper to toss cans, bottles, and plastic containers in his bike basket for later disposal in the recycling bins.

If you feel that with good planning we can still have a quality life, not degrade our environment and grow in economic importance ...

Re-Elect
Malcolm (Mac)
McLouth

Port Commissioner
macmclouth@googlepages.com

RE-ELECT, MALCOLM

(Mac)
McLouth

A Proven Track Record

- **Engineering, Business and Masters of Science** degrees, Univ. of Minnesota **Professional Engineer's License, Nationally Certified Environmental Engineer.**
 - **Moved to Brevard in 1962** to work at the Space Center.
 - **Elected Port Commissioner, served 1967-1996.**
 - **Instrumental in taking a** described "sleeping giant" in 1967 to the U.S.'s second largest cruise port and becoming economically self sufficient off the tax rolls in Brevard County.
 - **Resigned Commission to accept position as Director of Business Development on Port staff in 1996. Promoted to Executive Director and retired the end of 2004.** Subsequently, Mac returned to the consulting profession as an Environmental Engineer and remained active pursuing Maritime interests.
 - **Re-elected to Commission in 2009 to fill an unexpired term,** Mac now devotes full time to helping take the Port to a new level of economic leadership in Brevard County.
 - **Current President of Cape Canaveral Council of the Navy League of U.S. and past President of the Propeller Club at Port Canaveral.**
 - **Mac has served on the Brevard Transportation Planning Organization and is recipient of numerous awards.**
 - **Governor's Appointment to the East Coast Central Florida Regional Planning Council where he served as Chairman.**
- Long Time Community Involvement**
- **Long time residents of Brevard, Mac and his wife, Judy, are active in numerous civic and religious activities plus have 17 grandchildren.**

Political advertisement paid for and approved by Malcolm McLouth, Republican for Canaveral Port Authority, District 5.

How long have you been a resident of Brevard County?

30

To which Commissioner are you applying?

District 2

Interests & Experiences

Please tell us about yourself and why you want to serve.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

The EEL Selection and Management Committee serves as an expert volunteer scientific advisory committee to the County Commission on all issues involving the acquisition and management of environmentally endangered lands with the EEL Program protected area network in Brevard County. **The committee also has two seats for experts in the fields of business, finance or real estate.** Please complete the following information and **include your resume as an attachment** when submitting this application for consideration as a volunteer member of the Selection and Management Committee.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your willingness o serve on the committee for a minimum term of two (2) years.

I agree that I am willing to serve on the committee for two years

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your ability to attend meetings in-person

You agree that you are available to attend in-person meetings

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide a brief overview of your background and expertise related to the following committee member requirements: Four-year postsecondary academic degree (B.S. or equivalent) in biological or environmental sciences or demonstrated professional expertise (minimum of 6 years) in a closely related conservation field such as ecosystem management, natural resources conservation, aquatic biology, field ecology, marine biology, botany, geology, hydrology, fire ecology, natural areas management, human use and recreation in natural areas, science education, or natural area sanctuary design. OR a background and expertise in either business, finance or real estate.

I have been a real estate developer since 1993 and a CPA and businessman since 1981. I have expertise in real estate and finance as enumerated on my resume.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

Brevard County Housing Finance Authority

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

No

Please explain your interests and experiences.

I have been an avid Brevard fisherman since I started visiting here in 1989. I love our waterways and the natural habitat that we have in Brevard. I have studied the Banana and Indian Rivers extensively, as well as Sykes Creek. I want to help preserve this habitat for future generations.

Michael A Hartman

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

As stated above, I have extensive real estate and finance experience.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

None.

Advisory committees are subject to the Florida open meetings (Sunshine) and public records laws; your response with a completed application with your contact information is a public record; if chosen as a member of the committee, any communications to you from the County or from you to the County in regard to the committee will be a public record.

Please Agree with the Following Statement

I understand the responsibilities and commitment of time associated with an appointment to a Brevard County board, council or committee.

I Agree

MICHAEL A. HARTMAN
8914 Puerto Del Rio Dr. #303
Cape Canaveral, FL 32920
321-223-8650
mm1370@aol.com

Michael Hartman has been a developer, property manager and owner of LIHTC rental housing developments since 1993. Over the last twenty-nine years he has developed over eighty LIHTC rental housing developments totaling approximately 9,100 units in sixteen states. Mr. Hartman oversees and performs all aspects of residential rental development, construction and property management. Among his specialties are analyzing acquisitions and determining the economic viability of proposed new developments, land acquisition, securing government support and approvals, development design, property management and financing.

Prior to becoming a developer in 1993, Mr. Hartman practiced as a CPA in Maryland for twelve years as a tax and business consultant. During that time he was providing tax saving strategies to clients and auditing numerous clients including general contractors, rental housing developers and commercial property developers. He has been a licensed CPA for forty years.

Owner, MAH Consulting

7/04-Present

Working owner of a multistate development and consulting business that develops and manages both LIHTC rental and for-sale housing and commercial properties. I developed residential rental developments in Texas and commercial developments in Florida for my own account. I also worked as a consultant, COO and CFO for other LIHTC rental housing developers, contractors, and property managers, assisting my clients in the development and construction of Florida and Texas rental properties, managing their portfolios of operating rental properties, and assisting one of them in the repositioning of his portfolio of properties. Highlights:

1. From 10/04 to 7/07 I worked as a consultant to Finlay Development in Jacksonville Beach, FL. My function was to be Chris Finlay's unofficial COO, supervising his development, construction and property management companies, and handling issues as they arose. I helped him win, finance and construct LIHTC developments in FL and Texas. I also served as his interim CFO when his CFO quit without notice, and hired a new CFO for his company. Finally, I also toured their properties in several states and gave recommendations on how to make them more profitable.
2. From 8/07 to 2/12, and from 11/15 to 7/17 I worked as a consultant to Roundstone Development in Dallas, TX. I helped them win, finance and construct LIHTC developments in FL and Texas.
3. From 3/12 to 2/13 I was President of Tejas Housing Group in Austin, TX. I helped them win, finance and construct LIHTC developments in Texas.
4. ConCor LLC was a partnership with a local GC in Brevard County, FL from 3/13 to 12/16. I was the money partner and the developer on developments proposed by the GC. The company never made profits, so I terminated it in 2016.
5. From 6/13 to 10/15, and from 8/17 to the present, I have been the Development Manager for Turnstone Development Corporation. From 2013 to 2015 I won, financed and permitted a 105-unit LIHTC high-rise in Fort Lauderdale, FL. Once construction began, they did not have enough funding for my services, so I went back to Roundstone

Development, but continued to render services to Turnstone on a gratis basis for the development in Fort Lauderdale. Once the building was completed, they requested that I come aboard on a full-time basis. Since then, we have won one 9% and one 4% deal in Florida, both of which I designed, permitted and financed. I am currently supervising the construction and lease up of both Florida developments plus preparing applications for new LIHTC developments.

President, Merritt Housing Corporation

9/99-11/01

Member, Merritt Housing, LLC

11/01-7/04

President and working owner of a multistate LIHTC rental housing developer and contractor which specialized in developing rental properties in Florida and Texas. We developed eight LIHTC rental properties during that period totaling 1,195 units.

COO/CFO, The Heritage Companies

4/93-8/99

COO/CFO of an integrated real estate conglomerate that consisted of a development company, a licensed general contractor and a property management firm. During this timeframe we expanded Heritage's portfolio of LIHTC rental housing by approximately 6,500 units in sixteen states. As COO/CFO of the companies I had overall responsibility for a staff that grew from 20 to 370 employees during this time frame. I also negotiated all debt and equity agreements for the 65 properties we developed during my tenure.

Manager, Reznick Fedder & Silverman, CPAs

12/88-3/93

Provided tax and business consulting and auditing services to companies involved in all disciplines of real estate, including developers, contractors, property managers, lending institutions, syndicators and material suppliers. Overall client responsibility for a real estate conglomerate that had five operating divisions (construction, hotel management, commercial real estate management, building and refurbishment and finance) and controlled fifty properties, and overall client responsibility for a company that owned and managed twenty apartment complexes.

Tax Supervisor, PHH, Inc.

7/87-12/88

Responsible for tax planning and compliance for the sixty subsidiaries that comprised the Fleet Leasing Division. The Division filed in excess of 800 income tax returns in thirty-five states.

Tax Manager, Wooden & Benson, CPAs

12/85-6/87

Responsible to provide tax and business consulting services to all clients of the firm. Our clients included contractors, subcontractors, material suppliers, property managers, and lending institutions.

Tax Supervisor, Grant Thornton, CPAs

1/81-11/85

Responsible to provide tax and business consulting and auditing services to seventy-five of the firm's clients in over forty industries, ranging from banks to trucking companies to a hazardous waste disposal company.

EDUCATION

Bachelor of Arts – Accounting (1981)

October 14, 1986

Paul, it gives me great pleasure to congratulate you on this your five year employment anniversary with CIT-ALCATEL, INC.

In our fast-paced environment, too often we do not have the opportunity to say "thank you" to the people whose dedication and contributions to our organization have helped it grow.

Over the years we have achieved many milestones, none of which could have been accomplished without the enthusiasm and dedication of employees such as yourself.

You have been instrumental in coordinating many of our projects. Your attention to detail and determination in seeing a job through are to be commended. Your efforts have been appreciated by our customers.

I wish to extend my personal thanks to you for your dedication and loyalty. I look forward to many more years of working with you at CIT-ALCATEL, INC.

Biography of Robert L. Jordan, Jr., CM Chairman, President & CEO Genesis VII, Inc. & Viera Charter School

Robert L. Jordan, Jr., hails from a small town in, GA., but, has been a dedicated resident of Titusville for nearly 30 years. Robert became involved in community efforts early on, starting when his children began their educational years, within Brevard Counties public schools, in Titusville. From childhood, Robert was taught the importance of education, so, eagerly, participated in his children’s education, every step of the way; at one point, even serving as a PTO President. Desiring to become more, deeply, involved in Civic/Community opportunities, where he could serve more people, by the masses, Robert ran for a seat on the Brevard County School Board, which subsequent wins afforded him the honor of serving as, either, Chairman or Vice-Chairman, throughout his eight-year tenor. Robert became the first African American to hold a county wide seat in the history of Brevard County and, subsequently, the first African American, in the History of Brevard County, to hold the office of Chairman of the Brevard County School Board.

His parents, Robert & Dr Liz Jordan, always taught him to be his absolute best in all endeavors, *especially*, when having the honor of serving others. He has, purposefully, lived his life with their ingrained values of “being a peacemaker with a voice of reason”.

Presently, Robert is the President & CEO of Genesis VII, Inc., an Engineering, Logistics and Construction Services Company, based in Titusville, FL. He is proud of some of his major clients in the entertainment industry such as Disney, Universal and SeaWorld along with numerous Space and government related contractors. Prior to his acquisition of Genesis VII, in 2011, he held the position of Engineering Process Manager for the prime contractor on the United States Space Shuttle Program, at Kennedy Space Center. Other positions held throughout his 32-year career were: TPS

Engineer, Cargo Mechanical Engineer, Project Engineer and Manager, Proposal Manager, Facilities Manager and Program Manager.

A graduate of Savannah State University, Robert obtained a Bachelor of Science degree, in Civil Engineering Technology and a minor in computers, in 1979. He received his Master of Aeronautical Science degree, with a Specialization in Management from Embry Riddle Aeronautical University, in 1992. Robert is also a Certified Professional Manager and Certified Facilitator.

Civic positions held by Robert, are vast: Vice Mayor, City of Titusville, Fl. , Chairman and President- Viera Charter School, Chairman- Parrish Medical Center Board of Directors, Chairman- Titusville Chamber of Commerce, Secretary/Treasurer – North Brevard Economic Development Zone, Board of Directors- United Way of Brevard, Chairman- Brevard Career Source, Jess Parrish Foundation Board, Board of Directors– Economic Development Council, Board of Directors- Circles of Care, Vice Chairman - Planning and Zoning- (City of Titusville FL.), Chairman- North Brevard Medical Support Board, Vice Chairman- Titusville YMCA, Chairman- Public Access Committee, past Space Coast Commerce Park Authority Board, past Brevard Cultural Alliance Board, and, present Selective Service Board.

Robert has been a recipient of numerous awards: Top Ambassador Bond Children's Advocacy Center of Brevard 2021, Business Lauriet – Junior Achievement 2021, Educational and Athletic Facility named in his honor-2020, NASA Public Service Medal, NASA Team Award, Engineer of the Year, Distinguished Engineer, Outstanding Young Engineers of America, Engineer of the Year, recipient of the Kellogg Management Program Scholarship, one of Space Coast Business Leaders- Most Admired, Business Leader of the Year- Space Coast Business News, Community Builder Award, Bishops Award for Business and service to the community, Leadership Star Award, Brevard Walk of Fame and Sustained Superior Performance Award.

The pride of Robert's life, and greatest supporters of his community services, are his lovely wife of 42 years, Karen, and, their, two, wonderful children, Robert III, Manager of Operations, at Genesis VII, Inc., and

Kristina, a System's Engineer for one of the large aerospace companies, based in Florida.

46 years

To which Commissioner are you applying?

N/A

Interests & Experiences

Please tell us about yourself and why you want to serve.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

The EEL Selection and Management Committee serves as an expert volunteer scientific advisory committee to the County Commission on all issues involving the acquisition and management of environmentally endangered lands with the EEL Program protected area network in Brevard County. **The committee also has two seats for experts in the fields of business, finance or real estate.** Please complete the following information and **include your resume as an attachment** when submitting this application for consideration as a volunteer member of the Selection and Management Committee.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your willingness o serve on the committee for a minimum term of two (2) years.

I agree that I am willing to serve on the committee for two years

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your ability to attend meetings in-person

You agree that you are available to attend in-person meetings

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide a brief overview of your background and expertise related to the following committee member requirements: Four-year postsecondary academic degree (B.S. or equivalent) in biological or environmental sciences or demonstrated professional expertise (minimum of 6 years) in a closely related conservation field such as ecosystem management, natural resources conservation, aquatic biology, field ecology, marine biology, botany, geology, hydrology, fire ecology, natural areas management, human use and recreation in natural areas, science education, or natural area sanctuary design. OR a background and expertise in either business, finance or real estate.

I have a B.S. in Journalism from the University of Florida. I have been a member of the business community in Brevard County for more than 40 years working for Florida Today (Marketing) Melbourne Square Mall (Marketing) Brevard Public Schools (Communications & Foundation Director) Community Credit Union & University Credit Union (Finance/Marketing), and Trinetics Group (Engineering Firm/Chief Marketing Officer).

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

My background includes working with the Marine Resources Council to help gain publicity for the designation of the Indian River Lagoon as an Estuary of National Significance in 1990. I helped to plan the inaugural "Hands Across the Water" event with Diane Barile and Dwayne DeFreese, which asked residents of the community to come to six different county causeways along the Indian River to raise awareness of this important designation. I compiled the official publication to send to Sec. William Riley filled with publicity generated from newspapers, magazines, television, and photographs along with the information about what would be done with the \$5 million grant to start the National Estuary Program in Brevard.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

No. I am particularly interested in environmental issues so I would be a passionate and creative board member for you.

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

No.

Please explain your interests and experiences.

I helped to successfully defend Horse Creek in Melbourne from having a gas station built next to the creek on US 1 in 1990. This issue was brought to the Melbourne City Council, which rejected it, and the developer fought and sued until it ended up at the Florida Supreme Court, which remanded it back to the council, and they rejected it again. I also helped to keep 160 houses near Lakewood Manor from being built on a watershed area adjacent to Lake Washington, since it would mean 160 septic tanks could leach into the soil and affect the quality of our water supply.

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

I am a college graduate and worked in Education for 12 years at the district level. As the Brevard Schools Foundation Director, I helped to start the Brevard Zoo School in 1996 by writing the first Compact Grant (\$20,000) from the Department of Education to fund the program. I picked out the first portable leased by BPS to be located at the Zoo and chose Sherwood Elementary School and the three 5th grade teachers who would eventually bring this program to more than 180 students the first year. I worked closely with the zoo over several years to get grants to hire teachers write the curriculum used in the classroom. I also helped to promote the summer zoo programs for students.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

Not requesting any accommodation.

PROFESSIONAL EXPERIENCE

Stern Brands, Inc. - Chief Executive Officer (11/2018 - Present)

- As a majority owner, turned around a near-bankrupt company during the worst economic crisis in recent history by managing strong EBITA performance while growing sales from \$250k to \$1m.
- Full P&L and overall authority for capital budgeting, real estate acquisition, and the merger of two business units Trinetics Group & Just In Time Contract Manufacturing, one acquired through a recent asset sale.
- Business development targets identified led to year-over-year profitability, ensured alignment of goals and priorities, monitored competitive markets, and quadrupled revenue in four years.
- Revitalize our company's mission, vision, strategic plan, and website driving continuous increases in operational efficiencies in the areas of contract manufacturing, ultrasonic welding, wire harnesses, and cable assemblies.
- Spearhead ISO 9001:2015 Quality Management System including setting KPIs, conducting internal audits, and determining root cause analysis of non-conformances and documentation controls.
- Tracked benchmark performance indicators, highlight trends and emerging technologies, and analyzed unexpected variances to achieve and exceed KPIs.
- Developed metrics to manage supplier scorecards and held my team accountable with performance reviews to suppliers regarding quality, service, and cost.
- File all legal and regulatory documents comply with national, state, and local laws with 100% adherence.
- Recruit, train, and mentor new talent and develop existing employee talent.
- Update policies and onboard new hires, and train in Foreign Object Detection (FOD) and Counterfeit Parts.
- Create company-wide culture of environmental health & safety expectations with 700+ accident-free days.
- Rebranded to Stern Brands, Inc., with a focus on continuous improvement of customer service, sales, support, quality, logistics, and monitor completion of corrective action/preventative action activities.
- Review employee business cases for project proposals for new products and services to increase revenue.
- Fortify R&D with new prototype and product development capabilities enabling federal tax credits.
- Reduce debt and eliminate stagnant balance sheet assets for maximum return on investment.
- Build collaborative partnerships with internal and external stakeholders to meet functional objectives.
- Used management process and methodologies to ensure manufactured products are delivered on time within budget, adhere to quality standards, and exceed customer expectations.

University Credit Union, Chief Marketing Officer (1/2015 – 10/2018)

- Key advisor on the leadership team providing insight using data analytics and research on customer perspectives and employee engagement for strategic initiatives and decision-making.
- Created an award-winning, trademarked brand (Bank with your Brain) for a \$680 million credit union complete with new logo and tagline, website, social media presence, and digital marketing. Won the Web Marketing Association's highest web award for Best Credit Union Website.
- Developed a new branded website in responsive design, including ADA/504 compliance, condensed site architecture, integrated social media, which increased calls to action (CTA) and click through ratios (CTR), and integrated multiple third-party software partners in ten months.

- Built robust relationships and secured million-dollar, multi-year contracts with UCLA, Pepperdine University, Loyola Marymount University, and Mount Saint Mary's Universities.
- Led communications programs and designed a loan portal serving the University of California campuses and other universities across California, as well as the West Coast Conference Universities.
- Coordinated all University requests for sponsorships, program support and speakers collaborating closely with individual University administrators, VPs, communications, and athletic departments.
- Developed a robust marketing funnel for onboarding providing communications e. Implemented new organic search strategies to increase SEO rankings and increase market share in a highly competitive environment.

EquistarPR, President and CEO, (1/2013 - 12/2014)

- Prepared marketing plans for a major fast-food chain with 75 restaurants including grass roots marketing, school partnerships, loyalty program, and event marketing.
- Developed marketing materials for ShareSpring, a start-up, web-based, social media hub product enabling aggregating, moderating, and curating posts into a stunning visual gallery to increase viral engagement.
- Designed websites and created written content for client blogs and new copy to update client websites.
- Prepared an updated website recommendation plan for CUDL, a Credit Union Service Organization.
- Implemented Search Engine Optimization tactics for clients to give higher Google rankings for their products.
- Installed Customer Relations Management (CRM) tools for retail clients to track prospects, converted new business to sales, and increased ROI for small retailers.

California State University, Northridge, AVP Marketing and Communications (12/2012 - 4/2013)

- Edited 10-15 weekly pro-active press releases about CSUN and pitched placement to key journalists with access to faculty experts for interviews.
- Launched university-wide graphics standards and produced a wide variety of publications, including commemorative programs, invitations, and promotional literature.
- Audited California State University Northridge's (CSUN) public relations program creating a blueprint to communicate its mission to various constituencies and ensure brand consistency and image.
- Created key performance indicators (KPI) to promote the image and brand of the university and its various programs by using benchmark research data to determine the most effective techniques and approaches for reaching target audiences.
- Developed CSUN collateral raising \$50,000 for Presidential Leadership Award highlighting student achievement.
- Certified as Community Emergency Response Training in crisis management.

Vice President of Marketing, Community Credit Union of Florida (1/2007 – 12/2012)

- Rebranded CCU serving 35,000 members while increasing its assets by 56% (\$150 million.) Recognized as Raddon Crystal Performer (3 years) being assessed in the 99th percentile range.
- Designed and maintained website and microsite to promote loan products and services while meeting industry compliance and security standards. (www.ccuFlorida.org and www.remixccu.org).
- Prepared strategies and business plans to the Board of Directors for implementing new technology such as the CCU app for iPhone, Android, and iPad, text balance, mobile banking site, mobile loan connectivity, mobile deposit, remote deposit capture, and other major electronic services initiatives.

2011

To which Commissioner are you applying?

None Selected

Interests & Experiences

Please tell us about yourself and why you want to serve.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

The EEL Selection and Management Committee serves as an expert volunteer scientific advisory committee to the County Commission on all issues involving the acquisition and management of environmentally endangered lands with the EEL Program protected area network in Brevard County. **The committee also has two seats for experts in the fields of business, finance or real estate.** Please complete the following information and **include your resume as an attachment** when submitting this application for consideration as a volunteer member of the Selection and Management Committee.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your willingness o serve on the committee for a minimum term of two (2) years.

I agree that I am willing to serve on the committee for two years

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your ability to attend meetings in-person

You agree that you are available to attend in-person meetings

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide a brief overview of your background and expertise related to the following committee member requirements: Four-year postsecondary academic degree (B.S. or equivalent) in biological or environmental sciences or demonstrated professional expertise (minimum of 6 years) in a closely related conservation field such as ecosystem management, natural resources conservation, aquatic biology, field ecology, marine biology, botany, geology, hydrology, fire ecology, natural areas management, human use and recreation in natural areas, science education, or natural area sanctuary design. OR a background and expertise in either business, finance or real estate.

Business Managing Director for professional career in Software and Implementation. Most of career was in accounting software design, build and implementation. Arthur Andersen was one of my resellers - for large non-profit and governmental clients. Second company success was market leader Java application development framework (used by 10,000 companies worldwide), and award winning collaborative software. As a systems analyst, my skills are in finance, strategic management, analysis, and project management. All of these would be applicable to looking at EELs projects.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

My background in business and finance combined with my strong analysis abilities and willingness to study and understand scientific literature would make me a good candidate for the EELs board. I have a passion for Brevard ecosystems especially related to how they affect water quality. I am well versed in conservation land management as have studied numerous plans with the state. EELs has a hefty responsibility for 158 prescribed fire rotations, fire line maintenance, habitat (exotic species eradication) and hydrological restoration (important), trail, road, fence and parking maintenance. My business and finance background I would be looking at the issues from a cost-saving approach and opportunity to incorporate some additional passive public use of the lands without harming the ecological purpose of conservation. I have also taken the time to study the EELs program documents and attended some board meetings, attended the EELs budget referendum presentation (Feb '22), and was an advocate for the referendum. Specifically, I heard all 5 commissioners' concern of not acquiring lands that take further lands off the tax roll but were supportive of the maintenance portion of EELs. Given the % of lands owned Federally, Brevard has the challenge of having a high percentage of lands not on tax roll. The most vulnerable lands in Brevard which are proposed under EELs are not developable (at least according to state and federal laws) and offer the advantage of helping clean water for water quality, fisheries benefits, hurricane flood mitigation.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

No.

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

No.

Please explain your interests and experiences.

My interests would be in looking into the program expenses: admin (25%), trails (22%), acquisition (4%) and management (49%). Is it possible to spend more on trails so that the properties can serve also public and eco-tourism? Brevard is amazing in the natural wildlife - and recently we lost our birding festival - could having some birding observation locations boost birding tourism? What is the fiscal cost/benefit? Brevard was very innovative in creating the ELLs program in 1990 with \$45.6 million bonded, then 2004 with 45 million bonded - and since other Counties have done the same. Florida is growing very quickly and EELs is a way to preserve some natural habitat to help the survival of wildlife species - with 19,444 acres preserved in Brevard. There is a balance to acquisition so not to take lands off tax rolls given the high percentage of acres Federally owned. The acquisitions proposed are wetlands which safeguard our water basin (future water supply- aquifer recharge), improve water quality, flood mitigation, and fisheries and wildlife habitat. My interests and experiences include extensive knowledge of land management agreements for state conservation areas (Save the Coastline and FCT).

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

My education experience is 4 years towards Bachelor of Business Administration. My work experiences in technology, scientific research, fiscal accounting and notably project management are skill sets which can be application and which will make me a strong asset for contributing to EELS Board. I have served on (Broward and Brevard) School Advisory Councils, Brevard Gifted Advisory Council, and Patrick Space Force Base Restoration Advisory Board such that I know the Roberts Rules of Order and professional responsibilities of serving. My regular attendance at BOCC also shows that I will be committed to show for meetings for quorum and responsibility.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

How long have you been a resident of Brevard County?

50 years

To which Commissioner are you applying?

N/A

Interests & Experiences

Please tell us about yourself and why you want to serve.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

The EEL Selection and Management Committee serves as an expert volunteer scientific advisory committee to the County Commission on all issues involving the acquisition and management of environmentally endangered lands with the EEL Program protected area network in Brevard County. **The committee also has two seats for experts in the fields of business, finance or real estate.** Please complete the following information and **include your resume as an attachment** when submitting this application for consideration as a volunteer member of the Selection and Management Committee.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your willingness o serve on the committee for a minimum term of two (2) years.

I agree that I am willing to serve on the committee for two years

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please confirm your ability to attend meetings in-person

You agree that you are available to attend in-person meetings

I Agree

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide a brief overview of your background and expertise related to the following committee member requirements: Four-year postsecondary academic degree (B.S. or equivalent) in biological or environmental sciences or demonstrated professional expertise (minimum of 6 years) in a closely related conservation field such as ecosystem management, natural resources conservation, aquatic biology, field ecology, marine biology, botany, geology, hydrology, fire ecology, natural areas management, human use and recreation in natural areas, science education, or natural area sanctuary design. OR a background and expertise in either business, finance or real estate.

Opened Title Assurance and Escrow, Inc. in 1973, and continued in this line of work until retiring October, 2022 as a partner in Alliance Title and Escrow, Inc. Worked closely with Brevard Realtors (commercial and residential), mortgage lenders and bankers, and was involved with approximately 75,000 closings over this time span.

Question applies to Environmentally Endangered Lands Selection and Management Committee (SMC)

Please provide an overview of your knowledge of Brevard County ecosystems, habitat types and conservation land management techniques. NOT required for applicants applying for the positions related to business, finance or real estate.

Are you currently serving on any State, Regional or Brevard County board, council, or committees? If so please name.

Currently serve as a commissioner on the Melbourne Housing Authority.

Do you have or hold any employment or contractual relationship with any business or any agency which is subject to the regulation of or is doing business with Brevard County? If so, please explain.

No. As I have been under the roof of one company for a very long time, I have not needed a resume nor can I locate a copy of a resume I used in the mid 1980's. If absolutely required, please advise and I will put one together. From 1985 to 2002 I served as a field adjuster for both a local firm and moved to Tampa, where I handled large claims in the Caribbean and SE U.S. as a general adjuster for CIGNA. I returned to Melbourne in '92, as CIGNA had lost enough money in, topped off by Hurricane Andrew in South Florida.

Mr. Stephen Spragins

Please explain your interests and experiences.

I have been an active member of the community while living in Brevard. During my 50 years I have been fortunate to be able to travel extensively. I enjoyed scuba diving, snow skiing and motorcycle riding throughout the world. Currently I read both the New York Times and The Florida Today along with some national weekly publications. I am very interested in the continuing success of Brevard County using sound practices in the ecological field.

Please explain your background, including education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and how this applies to the function of the Board, Council or Committee that you are interested in serving on.

Graduated from Wake Forest University in 1972 with a major in political science. My father and I opened Title Assurance upon my graduation, and I remained heavily involved as a partner until several months ago. Among the boards I have served include The Henegar Center, Rotary Club of Indialantic (still an active member), and The Melbourne Chamber of Commerce.

Brevard County Board of County Commissioners strives to promote diversity and provide reasonable accommodations for individuals with disabilities. If you are requesting an accommodation, please indicate below.

Born Feb. 25, 1950 in Greenville, Ms.

Father was an attorney who practised in the greater Washington, DC area, thus I grew up in Silver Spring and Rockville, Md.

He was offered leadership of a title agency with an office in Vero Beach and Melbourne, inviting me to join him upon my college graduation.

Graduated from Harker Preparatory School in Potomac, Md. in 1968.

Graduated from Wake Forest University with a B.A. degree in 1973.

1973 -1986;: Licensed closing agent for Title Assurance and Escrow, Inc. Opened offices in Titusville and Merritt Island.

1986 -1992: Held position of property insurance adjuster with CIGNA working out of Tampa, handling large claims in the SE U.S. and Caribbean Islands.

1992 -2000: Took over leadership of BDR Title upon the passing of my father. 50% of BDR was owned by Mercedes Homes.

2000 - 9/2022: Split from BDR and opened Alliance Title Insurance Agency by bringing four competitors and a real estate attorney under one roof.

Sept. 2022 retired from Alliance Title with 33% ownership interest of 33%.

Have resided in downtown Melbourne with my Australian wife since 2004 in a condo 100 yds east of The Chart House, overlooking the Indian River.

Thank you for your consideration.
