SECTION 4: NEW CONSTRUCTION PLAN REVIEW (SITE DEVELOPMENT) AND INSPECTIONS:

Florida law requires the fire department to perform plan review and new construction inspections on multi-family residential structures with three or more dwelling units and all commercial property. Proposed site plans are reviews for access, firefighting water, wildland (urban/rural) interface, and certain property setbacks for fire safety. Subdivisions also require a similar review and site inspection to ensure water and access requirements are met. The rates for site development reviews are as follows.

(a) Pre-Application Review and Meeting	\$107.00
(b) Site Plan Initial Review (includes first revision)	\$107.00
(c) Each Subsequent Site Plan Revision	\$54.00
(d) Subdivision Initial Review (includes first Revision)	\$160.00+\$3/lot
(e) Each Subsequent Subdivision Revision	\$54.00
(f) Alternate Water Supply	\$107.00
(g) Re-Inspection Fee	\$44.00

SECTION 5: BUILDING PROJECT REVIEW AND INSPECTIONS:

Residential projects with three or more dwelling units and all commercial projects require building permits. Technical assistance may be necessary on certain projects and the fire prevention plan review may need to be performed by an independent third party with expertise in the matter to be reviewed at the submitter's expense. This provision is defined in the Florida Fire Prevention Code. The independent reviewer shall provide an evaluation and recommended necessary changes of the proposed design, operation, process, or new technology to the Fire Prevention Office. Should it be necessary to exercise this provision the permit and inspection fees still apply.

The rates for Building Reviews and Inspection Fees are as follows:

- | | |
|--|--|
| (a) Building Projects | \$54.00 + value X 0.0035 |
| (Value equals the construction value or latest ICC Building Valuation Table construction value, whichever is greater) | |
| (b) Design Review | \$107.00 or 15% of permit fee |
| whichever is greater | |
| (c) Construction Without a Permit | Double all fees or \$266.00 |
| whichever is greater | |
| (d) Re-Inspection Fee | \$44.00 |
| (e) Standby Request or Fire Watch | \$54.00/hour with 3-hour minimum |
| per inspector | |
| (f) Inspections Outside of Normal Business Hours | \$54.00/hour with 3-hour minimum |
| per inspector | |
| (g) Post Temporary CO Inspections | \$54.00/hour per inspector |
| (h) Concurrent Building Plan Review | \$531.00 (permit does not have to be issued) |
| (i) Amendments/Revisions to Plans/Submittals | \$7.00 per page with \$27.00 minimum |
| (j) Building Projects Review includes new construction, remodeling, renovations, and repairs for all projects requiring a commercial building permit. This includes residential structures with three or more dwellings. | |

Design Review is applied to permits when the submitter has numerous (six or more) items that are not code compliant or significant issues that causes plan review to be unduly difficult. This fee is not applied to minor problems/errors but will be applied when the designer did not follow the provisions in the Code of normal design practices. The purpose of the Design Review fee is to help encourage design professionals to ensure they are submitting code compliant plans. Poorly Designed projects slow down the entire review process which has a negative impact on other people's projects.

The building and fire codes have language that allows additional charges when work is performed without a permit. To discourage this practice, all permit/inspection fees will be doubled, with a minimum fee of \$266.00 when work is performed without an approved, paid-for permit on site.

Standby and fire watch fees are charged when a feature of fire protection is nonfunctional or impaired, creating a life safety concern. These fees apply if the responsible party is unwilling or unable to provide an approved fire watch. These fees will also be charged when a facility or entity is using their property for other than its usual purpose with the fire marshal's approval to ensure the public's and facility's safety.

Post Temporary Certificate of Occupancy (TCO) Inspection fees will be charged when the Building Official issues a TCO before the project is complete and the conditions of the TCO requires additional

inspections by Fire Prevention personnel. This creates additional inspection to ensure that all features of the fire protection and services are in working order, therefore, this service has not been calculated into the charges for inspecting a project.

Concurrent building plan review application fees will be applied to projects requesting building plans be reviewed prior to the site plan approval by the County. These plans require a full review; however, the submitter is under no obligation to build what has been reviewed.

SECTION 6: FIRE PROTECTION SYSTEMS PLAN & REVIEW INSPECTIONS:

Fire protection systems include automatic fire sprinkler systems, fire standpipe systems, fire alarm systems and automatic fire extinguishing systems. The below fees reflect the time commitment to perform these inspections.

(a) Fire Sprinkler System Plan Review & Permit	\$213.00
(b) Fire Sprinkler System Inspection	\$160.00 Per floor and/or riser
(c) Underground Inspection	\$160.00
(d) Fire Pump Test	\$107.00
(e) Underground Permit (if separated from sprinkler head)	\$107.00
(f) Minor Sprinkler System (less than 25 heads, not underground)	\$160.00
(g) Sprinkler Work Without a Permit whichever is greater	\$Double all fees or \$266.00
(h) Re-Inspection Fee	\$107.00

Fire sprinkler system inspections include a two-hour hydrostatic test and final inspection upon project completion. Each floor of a building or each zone risers are tested separately. Underground piping requires a two-hour hydrostatic test, a witnessed system flush inspection and a final inspection. Fire pump inspections require a flow test.

SECTION 7: FIRE PROTECTION SYSTEMS AUTOMATIC FIRE EXTINGUISHING SYSTEM AND FIRE PROTECTION SYSTEMS FIRE ALARM SYSTEMS:

The rates for review, permitting, inspections and testing of automatic fire extinguishing systems and fire alarm systems are as follows:

(a) Automatic Extinguisher System Review & Permit	\$81.00
(b) Automatic Extinguisher System Inspection/Functional Test	\$81.00 each
(c) Automatic Extinguisher System Work Without a Permit whichever is greater	Double all fees or \$266.00
(d) Automatic Extinguisher System Re-Inspection Fee	\$44.00
(e) Fire Alarm System Review, Permit, Inspections/Test (Item (e) only applies to single story structures with less than ten (10) devices and a value of less than \$5000.00)	\$160.00

- (f) Fire Alarm System Review & Permit \$107.00
(Item (f) applies to all systems with ten (10) or more devices or more than a single story or a value of \$5000.00 or more)
- (g) Fire Alarm System Inspections/Test \$160.00 per floor
(Item (g) applies to all systems with ten (10) or more devices or more than a single story or a value of \$5000.00 or more)
- (h) Fire Alarm Work Without a Permit Double all fees or \$266.00
whichever is greater
- (i) Fire Alarm System Re-Inspection Fee \$44.00

SECTION 8: BUSINESS TAX RECEIPT REVIEW:

The rates for business tax receipt review, special event review, and inspections are as follows.

- (a) Business Tax Receipt Review \$17.00

SECTION 9: FIRE PREVENTION SAFETY INSPECTION RATES:

Fire Prevention and Life Safety inspections are based on the square footage of the building. Fees charged for Fire Prevention and Life Safety inspections will be in accordance with Table 9-1. If no code violations are found at the initial inspection, the fee charged will be in accordance with column A, if no code violation remain at the time of the first re-inspection, the fee charged will be in accordance with column A. If a second, third or fourth re-inspection is required to gain compliance with the Code the fee charged will be according to columns C, D, or E respectively.

If the owner and/or tenant is taken to the Code Enforcement Board, in addition to any fees, fines or penalties charged or imposed by Code Enforcement and/or the Special Magistrate, the Office of Fire Prevention will charge and administrative fee of \$266.00. Each additional inspection required will be charged at a rate equal to those in column A of Table 9-1.

All of the above fees are cumulative.

Fire and Life Safety inspections will be conducted in accordance with Florida Statutes, Florida Administrative Code, and National Fire Protection Association (NFPA) 1730, Standard on Organization and Deployment of Fire Prevention Inspection and Code Enforcement, Plan Review, Investigation, and Public Education Operations as adopted by the Florida State Fire Marshal. Inspection frequency is based on the occupancy risk classification.

NFPA 1730 Table 6.7 Minimum Inspection Frequency

Occupancy Risk Classification	Frequency
High	Annually
Moderate	Biennially
Low	Triennially
Critical Infrastructure	Per AHJ

Each occupancy will be evaluated to ensure the correct risk classification is applied. Generally, occupancies where people gather and/or where they sleep, storage over 10,000 square feet, mercantile over 3,000 square feet, business over 30,000 square feet, and industrial over 10,000 square feet are considered high risk because of the potential for loss of life, high fuel load, hazardous processes, hazardous materials, and/or high economic value. Certain operations and occupancies will be inspected as required by Florida Statute and/or the Florida Administrative Code.

Below is the Fire Prevention Safety Inspection Fee Matrix (Table 9-1)
