In accordance with the provisions of Section 125.66, Florida Statutes, and in the absence of an exemption listed above, the County hereby publishes the following information:

1. Summary of the proposed ordinance (must include statement of the public purpose, such as serving the public health, safety, morals, and welfare):

The proposed ordinance amends the Brevard County Local Provider Participation Fund (LPPF) ordinance. Changes would authorize the County to levy and collect hospital-supported special assessments from non-exempt private for-profit or not-for-profit hospitals that provide inpatient services within the County. By enabling additional federal funding through intergovernmental transfers (IGTs), the special assessment allows access to federal matching funds. Greater reimbursement will enhance the financial stability of hospitals, ensuring that they can continue providing essential healthcare services to Medicaid recipients. Furthermore, the initiative will continue to support the growth, maintenance, and improvement of hospital facilities in line with the County's population growth.

2. Estimate of direct economic impact of the proposed ordinance on private, for-profit businesses in the County:

See #3-5 below.

3. Estimate of direct compliance costs that businesses may reasonably incur if enacted:

Each year, the County will assess hospitals to fund the nonfederal share need for Medicaid payments. The local dollars generated from the hospital assessment will facilitate additional reimbursement. Each facility's financial impact will vary based on factors including Medicaid utilization. The assessment imposed will comport with applicable federal rules and will be set at a rate to generate the non-federal share need to draw down available federal match.

4. Any new charge or fee imposed on businesses subject to the proposed ordinance, or for which businesses will be financially responsible:

Assessed hospitals are responsible for the full cost of the assessment and are prohibited by the Amended Ordinance from passing along any costs associated with the assessment to their patients.

5. Estimate of the County's regulatory costs, including estimated revenues from any new charges or fees that will be imposed on businesses to cover such costs:

The County's administrative costs up to \$150,000 annually will continue to be reimbursed from the assessments collected. Any reasonable expenses the County incurs to collect delinquent assessments or defense of claims that arise in the event the objectives and procedures of this article are challenged, including any attorney's fees incurred as a result of contracting with an attorney to represent the county in seeking and enforcing the collection of delinquent assessments or in defense of such claims, are not subject to the annual limitation on administrative costs.

6. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

This Amended Ordinance will apply only to certain non-exempt hospitals operating in Brevard County.

7. Additional information that the Board of County Commissioners determines useful:

If the proposed Amended Ordinance is enacted, it is important to recognize that numerous businesses will continue to be positively affected, both within the healthcare sector and across various industries that rely on these hospitals for revenue and workforce engagement.

Key areas of continued positive economic impact across Brevard County include:

- *Job Creation & Employment Stability*
