Question applies to North Brevard County Hospital District Board

What do you feel the public's rights are in observing, monitoring and participating in the activities of the Hospital Board, and particularly the expenditure of funds?

I believe the public has both the right and the responsibility to be informed and engaged in the activities of the Hospital Board, particularly regarding decisions and the expenditure of funds. As our meetings are held in accordance with Florida's Sunshine Law, the public is welcome and encouraged to attend, observe, and participate by asking questions or offering input. I value public feedback and take into consideration any suggestions that may help advance the hospital's mission and positive objectives. The public's opportunity to provide input begins during the budget review process and continues throughout the year during the public comment portion of each monthly meeting. This transparency ensures that community members can remain informed, involved, and confident in how their hospital operates and utilizes its resources.

Citizen boards for publicly owned facilities should conduct all business with transparency and accountability, as required by Florida's Sunshine Law. A key responsibility of any board is to ensure the organization's financial stability while meeting community needs. In healthcare, that means prioritizing patient care and access to quality services.
