Call To Order

Approval of Minutes - January 7, 2021

H. Public Hearings

- H.1.** Scott W. and Debora A. Speer request a change of zoning classification from RR-1 to AU. (21Z00002) (Tax Account 2316763) (District 2)

Public Comment

Adjournment

In accordance with the Americans with Disabilities Act and Section 286.26, Florida Statutes, persons needing special accommodations or an interpreter to participate in the proceedings, please notify the Planning and Development Department no later than 48 hours prior to the meeting at (321) 633-2069.

Assisted listening system receivers are available for the hearing impaired and can be obtained from SCGTV staff at the meeting. We respectfully request that ALL ELECTRONIC ITEMS and CELL PHONE REMAIN OFF while the Planning and Zoning Board is in session. Thank You.

This meeting will be broadcast live on Space Coast Government Television (SCGTV) on Spectrum Cable Channel 499, Comcast (North Brevard) Cable Channel 51, and Comcast (South Brevard) Cable Channel 13 and AT&T U-verse Channel 99. SCGTV will also replay this meeting during the coming month on its 24-hour video server nights, weekends, and holidays. Check the SCGTV website for daily program updates at <http://www.brevardfl.gov>. The Agenda may be viewed at: <http://www.brevardfl.gov/Board Meetings>

Agenda Report

2725 Judge Fran Jamieson
Way
Viera, FL 32940

Public Hearing

H.1.

3/11/2021

Subject:

Scott W. and Debora A. Speer request a change of zoning classification from RR-1 to AU. (21Z00002) (Tax Account 2316763) (District 2)

Fiscal Impact:

None

Dept/Office:

Planning and Development

Requested Action:

It is requested that the North Merritt Island Dependent Special District Board conduct a public hearing to consider a change of zoning classification from RR-1 (Rural Residential) to AU (Agricultural Residential)

Summary Explanation and Background:

The applicants are seeking a change of zoning classification from RR-1 to AU for the purpose of having farm animals (2 pigs and two donkeys) and a small orchard. The parcel is located at 1465 Bishop Road, Merritt Island, and is developed with a 3,294 sq. ft. single-family residence. The applicant has not provided staff with a proposed development plan for the location of the proposed orchard or where the farm animals will be located. The RR-1 classification permits horses, barns and horticulture as accessory uses to a single-family residence but does not permit other farm animals.

The developed character of the surrounding area along Bishop Road is RR-1 (Rural Residential) and AU which are developed with single-family houses. The subject parcel and the surrounding area along Bishop Road have a Future Land Use (FLU) designation of RES 1 which is compatible with the current RR-1 zoning and the proposed AU.

The proposed AU zoning classification permits single-family residences and agricultural uses on 2.5 acre lots, with a minimum lot width and depth of 150 feet. The minimum house size in AU is 750 square feet. The AU classification also permits the raising/grazing of animals, fowl and beekeeping, plant nurseries and all agricultural pursuits, including the packing, processing, and sales of commodities raised on the premises are a permitted use in AU zoning.

The Board may wish to consider whether the request is consistent and compatible with the surrounding RR-1 single-family residences and AU zoning Classifications. The Board may also wish to consider the effect of Agritourism adjacent to single-family residential and waving any and all Developer/Owner claims to Agritourism.

The Board of County Commissioners will hear the request on **Thursday, April 15, 2021, at 5:00 p.m.**, at the Brevard County Government Center, 2725 Judge Fran Jamieson Way, Building C, Commission Room, Viera, Florida.

Clerk to the Board Instructions:

None

ADMINISTRATIVE POLICIES OF THE FUTURE LAND USE ELEMENT

Administrative Policies in the Future Land Use Element establish the expertise of staff with regard to zoning land use issues and set forth criteria when considering a rezoning action or request for Conditional Use Permit, as follows:

Administrative Policy 1

The Brevard County zoning official, planners and the director of the Planning and Development staff, however designated, are recognized as expert witnesses for the purposes of Comprehensive Plan amendments as well as zoning, conditional use, special exception, and variance applications.

Administrative Policy 2

Upon Board request, members of the Brevard County Planning and Development staff shall be required to present written analysis and a recommendation, which shall constitute an expert opinion, on all applications for development approval that come before the Board of County Commissioners for quasi-judicial review and action. The Board may table an item if additional time is required to obtain the analysis requested or to hire an expert witness if the Board deems such action appropriate. Staff input may include the following:

Criteria:

- A. Staff shall analyze an application for consistency or compliance with comprehensive plan policies, zoning approval criteria and other applicable written standards.
- B. Staff shall conduct site visits of property which are the subject of analysis and recommendation. As part of the site visit, the staff shall take a videotape or photographs where helpful to the analysis and conduct an inventory of surrounding existing uses. Aerial photographs shall also be used where they would aid in an understanding of the issues of the case.
- C. In cases where staff analysis is required, both the applicant and the staff shall present proposed findings of fact for consideration by the Board.
- D. For re-zoning applications where a specific use has not been proposed, the worst case adverse impacts of potential uses available under the applicable land use classification shall be evaluated by the staff.

Administrative Policy 3

Compatibility with existing or proposed land uses shall be a factor in determining where a rezoning or any application involving a specific proposed use is being considered. Compatibility shall be evaluated by considering the following factors, at a minimum:

Criteria:

- A. Whether the proposed use(s) would have hours of operation, lighting, odor, noise levels, traffic, or site activity that would significantly diminish the enjoyment of, safety or quality of life in existing neighborhoods within the area which could foreseeably be affected by the proposed use.
- B. Whether the proposed use(s) would cause a material reduction (five percent or more) in the value of existing abutting lands or approved development.
- C. Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development as determined through analysis of:

1. historical land use patterns;
2. actual development over the immediately preceding three years; and
3. development approved within the past three years but not yet constructed.

D. Whether the proposed use(s) would result in a material violation of relevant policies in any elements of the Comprehensive Plan.

Administrative Policy 4

Character of a neighborhood or area shall be a factor for consideration whenever a rezoning or any application involving a specific proposed use is reviewed. The character of the area must not be materially or adversely affected by the proposed rezoning or land use application. In evaluating the character of an area, the following factors shall be considered:

Criteria:

- A. The proposed use must not materially and adversely impact an established residential neighborhood by introducing types of intensity of traffic (including but not limited to volume, time of day of traffic activity, type of vehicles, et cetera), parking, trip generation, commercial activity or industrial activity that is not already present within the identified boundaries of the neighborhood.
- B. In determining whether an established residential neighborhood exists, the following factors must be present:
 1. The area must have clearly established boundaries, such as roads, open spaces, rivers, lakes, lagoons, or similar features.
 2. Sporadic or occasional neighborhood commercial uses shall not preclude the existence of an existing residential neighborhood, particularly if the commercial use is non-conforming or pre-dates the surrounding residential use.
 3. An area shall be presumed not to be primarily residential but shall be deemed transitional where multiple commercial, industrial or other non-residential uses have been applied for and approved during the previous five (5) years.

Administrative Policy 5

In addition to the factors specified in Administrative Policies 2, 3, and 4, in reviewing a rezoning, conditional use permit or other application for development approval, the impact of the proposed use or uses on transportation facilities either serving the site or impacted by the use(s) shall be considered. In evaluating whether substantial and adverse transportation impacts are likely to result if an application is approved, the staff shall consider the following criteria:

Criteria:

- A. Whether adopted levels of services will be compromised;
- B. Whether the physical quality of the existing road system that will serve the proposed use(s) is sufficient to support the use(s) without significant deterioration;

- C. Whether the surrounding existing road system is of sufficient width and construction quality to serve the proposed use(s) without the need for substantial public improvements;
- D. Whether the surrounding existing road system is of such width and construction quality that the proposed use(s) would realistically pose a potential for material danger to public safety in the surrounding area;
- E. Whether the proposed use(s) would be likely to result in such a material and adverse change in traffic capacity of a road or roads in the surrounding area such that either design capacities would be significantly exceeded or a de facto change in functional classification would result;
- F. Whether the proposed use(s) would cause such material and adverse changes in the types of traffic that would be generated on the surrounding road system, that physical deterioration of the surrounding road system would be likely;
- G. Whether projected traffic impacts of the proposed use(s) would materially and adversely impact the safety or welfare of residents in existing residential neighborhoods.

Administrative Policy 6

The use(s) proposed under the rezoning, conditional use or other application for development approval must be consistent with, (a), all written land development policies set forth in these administrative policies; and (b), the future land use element, coastal management element, conservation element, potable water element, sanitary sewer element, solid waste management element, capital improvements element, recreation and open space element, surface water element, and transportation elements of the comprehensive plan.

Administrative Policy 7

Proposed use(s) shall not cause or substantially aggravate any, (a), substantial drainage problem on surrounding properties; or (b), significant, adverse and unmitigatable impact on significant natural wetlands, water bodies or habitat for listed species.

Administrative Policy 8

These policies, the staff analysis based upon these policies, and the applicant's written analysis, if any, shall be incorporated into the record of every quasi-judicial review application for development approval presented to the Board including rezoning, conditional use permits, and vested rights determinations.

Section 62-1151(c) of the Code of Ordinances of Brevard County directs, "The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.

- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.
- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.

The minutes of the planning and zoning board shall specify the reasons for the recommendation of approval or denial of each application.”

CONDITIONAL USE PERMITS (CUPs)

In addition to the specific requirements for each Conditional Use Permit (CUP), Section 62-1901 provides that the following approval procedure and general standards of review are to be applied to all CUP requests, as applicable.

(b) Approval procedure. An application for a specific conditional use within the applicable zoning classification shall be submitted and considered in the same manner and according to the same procedure as an amendment to the official zoning map as specified in Section 62-1151. The approval of a conditional use shall authorize an additional use for the affected parcel of real property in addition to those permitted in the applicable zoning classification. The initial burden is on the applicant to demonstrate that all applicable standards and criteria are met. Applications which do not satisfy this burden cannot be approved. If the applicant meets its initial burden, then the Board has the burden to show, by substantial and competent evidence, that the applicant has failed to meet such standards and the request is adverse to the public interest. As part of the approval of the conditional use permit, the Board may prescribe appropriate and reasonable conditions and safeguards to reduce the impact of the proposed use on adjacent and nearby properties or the neighborhood. A nearby property, for the purpose of this section, is defined as any property which, because of the character of the proposed use, lies within the area which may be substantially and adversely impacted by such use. In stating grounds in support of an application for a conditional use permit, it is necessary to show how the request fulfills both the general and specific standards for review. The applicant must show the effect the granting of the conditional use permit will have on adjacent and nearby properties, including, but not limited to traffic and pedestrian flow and safety, curb-cuts, off-street loading and parking, off-street pickup of passengers, odors, glare and noise, particulates, smoke, fumes, and other emissions, refuse and service areas, drainage, screening and buffering for protection of adjacent and nearby properties, and open space and economic impact on nearby properties. The applicant, at his discretion, may choose to present expert testimony where necessary to show the effect of granting the conditional use permit.

(c) General Standards of Review.

- (1) The planning and zoning board and the board of county commissioners shall base the denial or approval of each application for a conditional use based upon

a consideration of the factors specified in Section 62-1151(c) plus a determination whether an application meets the intent of this section.

- a. The proposed conditional use will not result in a substantial and adverse impact on adjacent and nearby properties due to: (1), the number of persons anticipated to be using, residing or working under the conditional use; (2), noise, odor, particulates, smoke, fumes and other emissions, or other nuisance activities generated by the conditional use; or (3), the increase of traffic within the vicinity caused by the proposed conditional use.
 - b. The proposed use will be compatible with the character of adjacent and nearby properties with regard to use, function, operation, hours of operation, type and amount of traffic generated, building size and setback, and parking availability.
 - c. The proposed use will not cause a substantial diminution in value of abutting residential property. A substantial diminution shall be irrebuttably presumed to have occurred if abutting property suffers a 15% reduction in value as a result of the proposed conditional use. A reduction of 10% of the value of abutting property shall create a rebuttable presumption that a substantial diminution has occurred. The Board of County Commissioners carries the burden to show, as evidenced by either testimony from or an appraisal conducted by an M A I certified appraiser, that a substantial diminution in value would occur. The applicant may rebut the findings with his own expert witnesses.
- (2) The following specific standards shall be considered, when applicable, in making a determination that the general standards specified in subsection (1) of this section are satisfied:
- a. Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire and catastrophe, shall be: (1), adequate to serve the proposed use without burdening adjacent and nearby uses, and (2), built to applicable county standards, if any. Burdening adjacent and nearby uses means increasing existing traffic on the closest collector or arterial road by more than 20%, or 10% if the new traffic is primarily comprised of heavy vehicles, except where the affected road is at Level of Service A or B. New traffic generated by the proposed use shall not cause the adopted level of service for transportation on applicable roadways, as determined by applicable Brevard County standards, to be exceeded. Where the design of a public road to be used by the proposed use is physically inadequate to handle the numbers, types or weights of vehicles expected to be generated by the proposed use without damage to the road, the conditional use permit cannot be approved without a commitment to improve the road to a standard adequate to handle the proposed traffic, or to maintain the road through a maintenance bond or other means as required by the Board of County Commissioners.
 - b. The noise, glare, odor, particulates, smoke, fumes or other emissions from the conditional use shall not substantially interfere with the use or enjoyment of the adjacent and nearby property.
 - c. Noise levels for a conditional use are governed by Section 62-2271.

- d. The proposed conditional use shall not cause the adopted level of service for solid waste disposal applicable to the property or area covered by such level of service, to be exceeded.
- e. The proposed conditional use shall not cause the adopted level of service for potable water or wastewater applicable to the property or the area covered by such level of service, to be exceeded by the proposed use.
- f. The proposed conditional use must have existing or proposed screening or buffering, with reference to type, dimensions and character to eliminate or reduce substantial, adverse nuisance, sight, or noise impacts on adjacent and nearby properties containing less intensive uses.
- g. Proposed signs and exterior lighting shall not cause unreasonable glare or hazard to traffic safety, or interference with the use or enjoyment of adjacent and nearby properties.
- h. Hours of operation of the proposed use shall be consistent with the use and enjoyment of the properties in the surrounding residential community, if any. For commercial and industrial uses adjacent to or near residential uses, the hours of operation shall not adversely affect the use and enjoyment of the residential character of the area.
- i. The height of the proposed use shall be compatible with the character of the area, and the maximum height of any habitable structure shall be not more than 35 feet higher than the highest residence within 1,000 feet of the property line.
- j. Off-street parking and loading areas, where required, shall not be created or maintained in a manner which adversely impacts or impairs the use and enjoyment of adjacent and nearby properties. For existing structures, the applicant shall provide competent, substantial evidence to demonstrate that actual or anticipated parking shall not be greater than that which is approved as part of the site plan under applicable county standards.

FACTORS TO CONSIDER FOR A REZONING REQUEST

Section 62-1151(c) sets forth factors to consider in connection with a rezoning request, as follows:

“The planning and zoning board shall recommend to the board of county commissioners the denial or approval of each application for amendment to the official zoning maps based upon a consideration of the following factors:

- (1) The character of the land use of the property surrounding the property being considered.
- (2) The change in conditions of the land use of the property being considered and the surrounding property since the establishment of the current applicable zoning classification, special use or conditional use.
- (3) The impact of the proposed zoning classification or conditional use on available and projected traffic patterns, water and sewer systems, other public facilities and utilities and the established character of the surrounding property.

- (4) The compatibility of the proposed zoning classification or conditional use with existing land use plans for the affected area.
- (5) The appropriateness of the proposed zoning classification or conditional use based upon a consideration of the applicable provisions and conditions contained in this article and other applicable laws, ordinances and regulations relating to zoning and land use regulations and based upon a consideration of the public health, safety and welfare.”

These staff comments contain references to zoning classifications found in the Brevard County Zoning Regulations, Chapter 62, Article VI, Code of Ordinances of Brevard County. These references include brief summaries of some of the characteristics of that zoning classification. Reference to each zoning classification shall be deemed to incorporate the full text of the section or sections defining and regulating that classification into the Zoning file and Public Record for that item.

These staff comments contain references to sections of the Code of Ordinances of Brevard County. Reference to each code section shall be deemed to incorporate this section into the Zoning file and Public Record for that item.

These staff comments contain references to Policies of the Brevard County Comprehensive Plan. Reference to each Policy shall be deemed to incorporate the entire Policy into the Zoning file and Public Record for that item.

These staff comments refer to previous zoning actions which are part of the Public Records of Brevard County, Florida. These records will be referred to by reference to the file number. Reference to zoning files are intended to make the entire contents of the cited file a part of the Zoning file and Public Record for that item.

DEFINITIONS OF CONCURRENCY TERMS

Maximum Acceptable Volume (MAV): Maximum acceptable daily volume that a roadway can carry at the adopted Level of Service (LOS).

Current Volume: Building permit related trips added to the latest TPO (Transportation Planning Organization) traffic counts.

Volume with Development (VOL W/DEV): Equals Current Volume plus trip generation projected for the proposed development.

Volume/Maximum Acceptable Volume (VOL/MAV): Equals the ratio of current traffic volume to the maximum acceptable roadway volume.

Volume/Maximum Acceptable Volume with Development (VOL/MAV W/DEV): Ratio of volume with development to the Maximum Acceptable Volume.

Acceptable Level of Service (CURRENT LOS): The Level of Service at which a roadway is currently operating.

Level of Service with Development (LOS W/DEV): The Level of Service that a proposed development may generate on a roadway.

STAFF COMMENTS

21Z00002

Scott W. Speer and Debora A. Speer

RR-1 (Rural Residential) to AU (Agricultural Residential)

Tax Account Number: 2316763
Parcel I.D.: 23-36-25-75-*-1
Location: South side of Bishop Road, approximately 305 feet west of Board Acres Street (District 2)
Acreage: 2.50 acres

North Merritt Island Board: 03/11/2021

Board of County Commissioners: 04/15/2021

Consistency with Land Use Regulations

- Current zoning can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal can be considered under the Future Land Use Designation, Section 62-1255.
- The proposal would maintain acceptable Levels of Service (LOS) (XIII 1.6.C)

	CURRENT	PROPOSED
Zoning	RR-1	AU
Potential*	Two single-family units	One single-family unit
Can be Considered under the Future Land Use Map	YES RES 1	YES RES 1

* Zoning potential for concurrency analysis purposes only, subject to applicable land development regulations.

Background and Purpose of Request

The applicants are seeking a change of zoning classification from RR-1 (Rural Residential) to AU (Agriculture Residential) for the purpose of having a few farm animals (2 pigs and two donkeys) and a small orchard. The parcel is developed with a 3,294 sq. ft. single-family home that is the applicants' single family residence. The portion of Bishop Road that the parcel abuts is paved and maintained by Brevard County Public Works Department. The applicant did not provide staff with a proposed development plan submitted with this application for the location of the proposed orchard or where the farm animals will be located. The RR-1 classification permits horses, barns and horticulture as accessory uses to a single-family residence but does not permit other farm animals.

July 6, 1987, zoning action **Z-7850** changed the zoning from AU to RR-1 along with the approval of one flag lot pursuant to Section 61. Although one flag lot was approved with this rezoning application, the parcel has been recombined to the original configuration of Lot 1 as recorded in the plat "The North Forty" Plat Book 28, Page 75.

Land Use

The subject property retains the RES 1 (Residential 1) Future Land Use designation. The existing zoning classification RR-1 and the proposed AU are consistent with the RES 1 Future Land Use designation.

Applicable Land Use Policies

FLUE Policy 1.9 – The Residential 1 Future land use designation. The Residential 1 land use designation permits low density residential development with a maximum density of up to one (1) dwelling unit per acre, except as otherwise may be provided for within the Future Land Use Element.

The Board should evaluate the compatibility of this application within the context of Administrative Policies 2 – 8 of the Future Land Use Element.

Analysis of Administrative Policy #3 - Compatibility between this site and the existing or proposed land uses in the area.

The subject property is developed with a 3,324 sq. ft. single-family residence and lies within the Residential 1 Future Land Use designation. The abutting parcels and the surrounding area have a Residential 1 Future Land Use designation.

Policy #3C Whether the proposed use(s) is/are consistent with an emerging or existing pattern of surrounding development approved within the past three year but not yet constructed.

There has been one rezoning application (**20Z00005**) in the surrounding area, approximately 350 feet west of the subject parcel, approved on October 09, 2020 which changed the zoning from RR-1 to AU with a Binding Development Plan (BDP) limiting the business use to a plant nursery.

Analysis of Administrative Policy #4 - Character of a neighborhood or area.

The subject parcel is zoned RR-1 and developed with a 3,324 sq. ft. single-family residence.

The developed character of the surrounding area along Bishop Road is RR-1 (Rural Residential) and AU which are developed with single-family houses. The subject parcel and the surrounding area along Bishop Road have a Future Land Use (FLU) designation of RES 1 which is compatible with the current RR-1 zoning and the proposed AU.

The parcels to the north directly across Bishop Road are zoned RR-1 and are developed with single-family residence. The abutting parcels to the east are zoned RR-1 and are developed with single-family residence. The parcels to the south and west are two flag lots with AU zoning and are developed with single-family residence. The parcels west of the flag lots are zoned RR-1 and are developed with single-family residence.

The current RR-1 classification permits single-family residential land uses on minimum one acre lots, with a minimum lot width and depth of 125 feet. The RR-1 classification permits horses, barns and horticulture as accessory uses to a single-family residence but does not permit other farm animals. The minimum house size is 1,200 square feet.

The proposed AU zoning classification permits single-family residences and agricultural uses on 2.5 acre lots, with a minimum lot width and depth of 150 feet. The minimum house size in AU is 750 square feet. The AU classification also permits the raising/grazing of animals, fowl and beekeeping, plant nurseries and all agricultural pursuits, including the packing, processing, and sales of commodities raised on the premises are a permitted use in AU zoning.

Surrounding Area

There has been one zoning action within a half-mile of the subject property within the last three years.

On October 06, 2020, application **20Z00005** changed the zoning classification from RR-1 to AU with a Binding Development Plan (BDP) waving any and all Developer/Owner claims to Agritourism, and limiting the business use to a plant nursery. This parcel is a Flag Lot located on the south side of Bishop Road, approximately 350 feet west of the subject parcel.

Environmental Constraints

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Aquifer Recharge Soils
- Indian River Lagoon Nitrogen Reduction Overlay
- Floodplain
- Protected and Specimen Trees
- Protected Species

Per Section 62-3724(4) of the floodplain ordinance, the parcel may be subject to compensatory storage for fill brought onto the parcel. Please see floodplain section in NRM comments for more information.

Preliminary Transportation Concurrency

The closest concurrency management segment to the subject property is North Courtenay Parkway, between Hall Road and North Tropical Trail, which has a Maximum Acceptable Volume of 41,790 trips per day, a Level of Service (LOS) of D, and currently operates at 35.49% of capacity daily. The maximum development potential from the proposed rezoning does not increase the percentage of MAV utilization. The corridor is anticipated to continue to operate at 35.49% of capacity daily (LOS D). The proposal is not anticipated to create a deficiency in LOS.

No school concurrency information has been provided as the development potential of this site falls below the minimum number of new residential lots that would require a formal review.

The parcel is not serviced by Brevard County sewer. The closest available Brevard County sewer line is located directly across North Courtenay Parkway along the west side of North Courtenay Parkway approximately 1.8 miles west of the parcel.

The parcel is serviced by City of Cocoa water.

For Board Consideration

The Board may wish to consider whether the request is consistent and compatible with the surrounding RR-1 single-family residences and AU zoning Classifications.

The Board may also wish to consider the effect of Agritourism adjacent to single-family residential and waving any and all Developer/Owner claims to Agritourism.

NATURAL RESOURCES MANAGEMENT DEPARTMENT
Zoning Review & Summary
Item # 21Z00002

Applicant: Scott and Debora Speer

Zoning Request: RR-1 to AU

Note: Applicant wants farm animals and a small orchard.

NMI Hearing Date: 03/11/21; **BCC Hearing Date:** 04/15/21

Tax ID No: 2316763

- This is a preliminary review based on best available data maps reviewed by the Natural Resources Management Department (NRM) and does not include a site inspection to verify the accuracy of the mapped information.
- In that the rezoning process is not the appropriate venue for site plan review, specific site designs submitted with the rezoning request will be deemed conceptual. Board comments relative to specific site design do not provide vested rights or waivers from Federal, State or County regulations.
- **This review does not guarantee whether or not the proposed use, specific site design, or development of the property can be permitted under current Federal, State, or County Regulations.**

Summary of Mapped Resources and Noteworthy Land Use Issues:

- Aquifer Recharge Soils
- Indian River Lagoon Nitrogen Reduction Overlay
- Floodplain
- Protected and Specimen Trees
- Protected Species

Per Section 62-3724(4) of the floodplain ordinance, the parcel may be subject to compensatory storage for fill brought onto the parcel. Please see floodplain section in NRM comments for more information.

Land Use Comments:

Aquifer Recharge Soils

The entire parcel contains mapped aquifer recharge soils (Pomello sand) as shown on the USDA Soil Conservation Service Soils Survey map. The applicant is hereby notified of the development and impervious restrictions within Conservation Element Policy 10.2 and the Aquifer Protection Ordinance.

Indian River Lagoon Nitrogen Reduction Overlay

The entire parcel is mapped within the Indian River Lagoon Nitrogen Reduction Overlay per Chapter 46, Article II, Division IV - Nitrogen Reduction Overlay. Upon further development of the parcel for which the ordinance is applicable, the use of an alternative septic system designed to provide at least 65% total nitrogen reduction through multi-stage treatment processes shall be required, if sewer is not available.

Floodplain

Per Section 62-3724(4) of the floodplain ordinance, any development, land alteration, or grading on North Merritt Island in the area from Hall Road, north to State Road 405, herein after referred to as "Area," is subject to compensatory storage, and written certification from the engineer of record that there will be no adverse flooding impacts upon properties within the Area resulting from the proposed development. The engineer shall provide a report that includes full engineering data and analysis, including the hydraulic and hydrologic modelling and analysis demonstrating that there is no impact. Sealed pre-existing topographic survey or engineered site plan delineating floodplain limits on the property, if any, with base flood elevation using best available flood elevation data. Delineation of floodplains shall use best available pre-alteration ground elevation data. Any engineered compensatory storage shall be maintained by the owner in perpetuity. Please call NRM at 321-633-2016 prior to any grading, filling or land alteration activities.

Protected and Specimen Trees

The entire parcel is overlaid within a mapped polygon of SJRWMD FLUCCS code 4340-Upland Mixed Coniferous/Hardwood Native trees. Protected Trees (greater than or equal to 10 inches in diameter) and Specimen Trees (greater than or equal to 24 inches in diameter) are included in this FLUCCS code 4340 and are likely found on the parcel. Per Brevard County Landscaping, Land Clearing and Tree Protection ordinance, Section 62-4331(3), the purpose and intent of the ordinance is to encourage the protection of Heritage Specimen trees. In addition, per Section 62-4341(18), Specimen Trees shall be preserved or relocated on site to the Greatest Extent Feasible. Per Section 62-4332, Definitions, Greatest Extent Feasible shall include, but not be limited to, relocation of roads, buildings, ponds, increasing building height to reduce building footprint or reducing Vehicular Use Areas. The applicant is advised to refer to Article XIII, Division 2, entitled Land Clearing, Landscaping, and Tree Protection, for specific requirements for tree preservation and canopy coverage requirements. The applicant should contact NRM at 321-633-2016 prior to performing any land clearing activities. Land clearing is not permitted without prior authorization by NRM.

Protected Species

Information available to NRM indicates that federally and/or state protected species may be present on the property. Specifically, gopher tortoises can be found in areas of aquifer recharge soils. Prior to any plan, permit submittal, or development activity, including land clearing, the applicant should obtain any necessary permits or clearance letters from the Florida Fish and Wildlife Conservation Commission and/or U.S. Fish and Wildlife Service, as applicable.

Notice to Applicants for Change of Land Use

The Planning and Zoning Office staff will be preparing a package of written comments concerning your request. These comments will be provided to the Planning and Zoning Board and Board of County Commissioners. The comments will address the following:

The current zoning of the property along with its current development potential and consistency with the Brevard County Comprehensive Plan use and density restrictions.

The proposed zoning of the property along with its development potential and Consistency with the Board County Comprehensive Plan use and density restrictions.

The proposal's impact on services, such as roads and schools.

The proposal's impact upon hurricane evacuation, if applicable.

Environmental factors.

Compatibility with surrounding land uses.

Consistency with the character of the area.

You may place your own written comments regarding these items into the record. Up to two typewritten pages can be included in the package if received 10 working days prior to the Planning and Zoning Board hearing. You are not required to provide written comments. *An Applicant presentation to the Planning and Zoning Board is required regardless of written submittals.* The board may approve the requested classification or a classification which is more intensive than the existing classification, but less intensive than the requested classification.

Staff comments will be available approximately one week prior to the Planning and Zoning Board hearing. These comments will be made available to you at that time. In order to expedite receipt of staff's comments, please provide an e-mail address or fax number below. Alternatively, a copy of staff's comments will be mailed via the U.S. Postal Service.

NOTES:

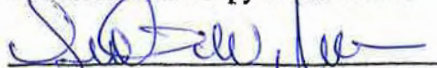

- ☐ If your application generates public opposition, as may be expressed in letters, petitions, phone calls, testimony, etc., you are advised to meet with concerned parties in an effort to resolve differences prior to the BCC taking final action on the request; therefore, you are encouraged to meet with affected property owners prior to the public hearing by the Planning & Zoning Board/Local Planning Agency (P&Z/LPA). During the course of conducting the public hearing, if the P&Z/LPA finds the application is controversial, and the applicant has not met with affected property owners, the item shall be tabled to the next agenda to allow such a meeting to take place. If the item is controversial, despite the applicant's efforts to meet with affected property owners, the P&Z/LPA may include, in their motion, a requirement to meet with interested parties again prior to the BCC public hearing. The BCC may also table your request in order for you to meet with interested parties, if this has not occurred prior to the public hearing before the BCC. If you need assistance to identify these parties, please contact the Planning & Zoning Office.
- ☐ BCC approval of a zoning application does not vest a project nor ensure issuance of a permit. At the time of permit application, land development regulations and concurrency-related level of service standards must be met.

Please transmit staff's comments via:

THIS AFFIDAVIT IS TO BE PRESENTED AT THE PUBLIC HEARING

AFFIDAVIT

STATE OF FLORIDA
COUNTY OF BREVARD

Before me, this undersigned authority, personally appeared, RICKY MAY,
to me well known and known to me to be the person described in and who executed the foregoing
affidavit, after being first duly sworn, says:

1. That the affiant posted the notice provided by the Brevard County Planning & Zoning Office, which contains the time(s) and date(s) of the Public Hearing(s) involved.
2. Said posted notice contains the name of the applicant, the total acreage of the property in question, the existing land use classification, special use classification or conditional use designation, and the requested amendment to the official zoning maps. Said notice also contains the time and place of the public hearing on the consideration of said application by the Board of County Commissioners of Brevard County, if applicable.
3. The said notice has been posted in a conspicuous place on the subject property not more than twenty-five (25) days, nor less than fifteen (15) days prior to the first public hearing before the applicable board (as indicated on notice). If the property abuts a public road right-of-way, the notice has been posted within ten (10) feet of the road right-of-way in such a manner as to be visible from the road right-of-way.
4. The affiant understands that this affidavit is intended to be submitted as a requirement for a public hearing, and as such, will be officially filed with the Government of Brevard County, Florida.
