EXHIBIT A

Project Description and Responsibilities

A. Project Description (description of Agency's project to provide context, description of project components funded via this Agreement (if not the entire project)): Hangar development at Valkaria Airport. The project consists of the design and phased construction of T-Hangar buildings and Box Hangars adjacent to Runway '14/32' on the north side of Valkaria Airport, X59. Including taxilanes, aprons and landside improvements.

B. Project Location (limits, city, county, map): Valkaria Airport/Valkaria, FL/Brevard

C. Project Scope (allowable costs: describe project components, improvement type/service type, approximate timeline, project schedule, project size): Design and construct three (3) twenty four (24) unit T-Hangars and three (3) 12,000-15,000 square foot Box Hangars. Along with taxilanes, and aprons to provide access from the airfield to each hangar. Landside improvements include vehicular parking and paving the access road. Electrical service to the facility is included for the power as well as site lighting.

As required by 215.971, F.S., this scope of work includes but is not limited to consultant and design fees, airspace analysis, bidding services, survey and geotechnical costs, permitting, construction inspection and material testing costs, mobilization and demobilization, maintenance of traffic, erosion control, demolition, pavement (access roadways, parking lots, and sidewalks), drainage, utilities, primary and back-up power supplies, building (foundation, structure, roof, MEP, drainage, and fire prevention and protection), pavement marking, lighting and signage, fencing and gates, landscaping (including outdoor lighting), and indoor/outdoor security systems, including all materials, equipment, labor, and incidentals required to complete the Box/T Hangar project. The Sponsor will comply with Aviation Program Assurances.

The specifics of the Project Scope for construction are described in and limited by the current 60% Project Construction Plans identified as "Valkaria North Lot Development" prepared by Infrastructure Consulting and Engineering, dated April 22, 2022, together with all plan updates, necessary design variation, exceptions, and change orders approved by the Agency.

D. Deliverable(s): Final closeout documents to be uploaded into Jacip.

The project scope identifies the ultimate project deliverables. Deliverables for requisition, payment and invoice purposes will be the incremental progress made toward completion of project scope elements. Supporting documentation will be quantifiable, measurable, and verifiable, to allow for a determination of the amount of incremental progress that has been made, and provide evidence that the payment requested is commensurate with the accomplished incremental progress and costs incurred by the Agency.

E. Unallowable Costs (including but not limited to): Stored material

F. Transit Operating Grant Requirements (Transit Only):

Transit Operating Grants billed as an operational subsidy will require an expenditure detail report from the Agency that matches the invoice period. The expenditure detail, along with the progress report, will be the required deliverables for Transit Operating Grants. Operating grants may be issued for a term not to exceed three years from execution. The original grant agreement will include funding for year one. Funding for years two and three will be added by amendment as long as the grantee has submitted all invoices on schedule and the project deliverables for the year have been met.
