Scope of Service

NAME OF DRUG COURT PROGRAMS: Juvenile Drug Court
 Adult Drug Court

SCOPE OF SERVICE: Drug Court Program will contract with Lifetime Counseling Centers (LCC) located at 505 Brevard Avenue, #106, Cocoa, FL 32922 and Space Coast Recovery, Inc. (SCR) located at 1215 Lake Drive, Cocoa, FL 32922 to provide intensive outpatient drug treatment and education services for juveniles and adults who are in pre-adjudicated diversion programs or on post-adjudicated probation. Also, in-patient substance abuse treatment services will be provided by SCR, located at 1215 Lake Drive, Cocoa, FL 32922. Per the Drug Court participant(s) contract, each client agrees to have an evaluation performed by LCC and SCR to determine the correct course of treatment that adheres to the National Drug Court Model. Assuming a cooperative participant, an evaluation shall be conducted for each participant within 15 days of referral by Drug Court to Lifetime Counseling Centers.

Every LCC and SCR counselor possesses a Master's degree level education at minimum and the program supervisors possess a Masters or Doctoral level education. Additionally, LCC's Medical Director is a licensed MD and serves as a higher level of supervision for all Psychosocial Assessments as required by 65D-30, FAG. Drug Court Program shall be responsible for ensuring that LCC and SCR personnel (or any other provider of treatment services compensated with monies provided through this MOU) maintain appropriate licenses and/or certifications to provide the treatment required hereunder throughout the time they provide services under this MOU.

Should LCC or SCR no longer provide services to drug court participants, Drug Court Program will locate, assess, and contract with another local community treatment provider. If no provider is obtained or willing to provide treatment services, the treatment portion of the funding will be refunded.

Proposed program purpose: To provide intensive supervision to drug addicted juveniles and adults who have been charged with or currently have pending criminal charges in the juvenile and adult court system. Every juvenile and adult is drug tested weekly; they must successfully complete a drug treatment program, as well as, court-ordered sanctions.

Target population and how many clients to be served annually: The juvenile drug court serves approximately 30-50 juvenile offenders, who are between the ages of 14-17. The adult drug court serves approximately 90-100 adult offenders, who are at least 18 years of age and older.

Describe "all" services to be provided: Management of the program, operational costs, liaison with the courts, the service providers, caseworkers and probation officers to monitor the juveniles and adults while in the community and to ensure they complete court-ordered sanctions, drug testing, drug treatment, family counseling, incentives, and graduation ceremonies.

Planned goals and objectives: Although juvenile drug court lost all funding sources back in 2006, we have worked hard to bring in additional grants and funding sources to help supplement the funding provided through this trust fund, to keep services ongoing, and to treat as many participants as possible. Additionally, the funding from the Trust Fund helps keep the number of Drug Court participants steady and able to receive services when needed. With the increase in substance misuse, as well as, the current opioid crisis epidemic there are an alarming number of drug addicted juveniles and adults in our community who are committing crimes. Therefore, we would like to extend access to substance abuse treatment and drug education services to both juvenile and adult offenders and their families.

Program outcomes and innovative strategies: Currently, we have an approximate success rate of 65% for juveniles and 70% for adults, which is based on those who are placed into the drug court program and remain both drug and crime free. Our success rate is due to the intensive supervision, drug treatment, counseling, and services that these juveniles and adults receive in the program. Most of these juveniles do not do well on regular probation because regular probation cannot provide the intensive services our drug court programs provide; however, once they are admitted into the drug court program they seem to do much better under stricter supervision, constant drug testing, and intensive drug and family counseling.

Drug Court Program will provide the Brevard County Department of Public Safety with quarterly reports, (Attachment "C"). Quarterly reports can be submitted to the County by electronic mail to Lisa.Bradley@BrevardFL.gov.
