III. SCOPE OF WORK

A. Funds have been allocated to the Recipient for a new Brevard Emergency Operations Center (BEOC). Per House Bill (HB) 3729 and Senate Form 1883 allocated funds are to be used to complete site work on land designated for future construction of a new BEOC.

B. Reimbursable costs for the future new BEOC site work include: architectural and engineering services; construction management services; general conditions; site survey and soil testing; necessary permits and regulatory fees; construction site cut, fill, grading and landscaping; civil, utilities and access driveway and parking site work; site safety, security and soil erosion and sediment control measures; and if applicable, costs associated with Leadership in Energy and Environmental Design (LEED), Green Globes or other green building certification. Surplus funds may be used for construction related to the site such as but not limited to foundation work or other construction which will enhance or contribute to the final build of the BEOC by written agreement with the Division programmatic grant manager.

C. The BEOC site work project's measurable outcome is an expansion of Brevard County disaster response and relief capacity. Brevard County Emergency Management shall have rent-free use of the future new BEOC for the life of the facility. The Recipient shall submit a binding written statement to the Division that real property improved with funds authorized by this funding agreement

(Agreement) shall be dedicated for emergency management purposes from the date of receipt of certificate of occupancy or completion (CO) or other written acceptance of work from the Authority Having Jurisdiction (AHJ) for a period of fifty (50) years, the estimated life of the future new BEOC, or until the end of the useful life of the facility as agreed to by the Division. The Recipient shall ensure that the future new BEOC site work completed with the fixed capital outlay funds granted by this Agreement will be used for the county's future new primary BEOC.

D. The Recipient agrees to maintain the site work for the future new BEOC in good repair and functional condition for the life of the work from the date of issue of the CO or other written acceptance of work by the AHJ.

E. If the Recipient fails, during the period of time established by this Agreement, to operate, maintain, repair and administer the work in accordance with the purposes for which the funds were originally granted, the Recipient shall return to the Division, no later than upon demand by the Division, an amount calculated as follows:

- a. The full amount of the grant funds for the first full year subsequent to the date of issue of the subject site work's CO by the AHJ; or,
- b. Beginning with the second full year subsequent to the date of issue of the subject site work's CO by the AHJ, the amount of the grant less one-and-a-half (1.50) percent for each full year for which the site work was used for such purposes; e.g., Year 2 = \$985,000, Year 3 = \$970,000.

The determination of Recipient's failure to operate, maintain, repair and administer the work in accordance with the purposes for which the funds were originally granted is at the sole discretion of the Division.

If the Division and Recipient, through mutual agreement, terminate this Agreement prior to the expiration date, the Recipient shall return to the Division, no later than upon demand by the Division, an amount not less than that calculated by a. or b. above, as applicable.

F. The site work finish grade shall be consistent with the lowest finished floor elevation of the future new BEOC and essential ancillary structures and equipment being elevated to or above the highest of the elevations determined by all of the following: 1. elevation above mean sea level corresponding to the maximum modeled storm surge inundation, including coastal wave effects, for the facility location plus 20 percent; 2. 100-year (one percent annual chance) base flood elevation plus three (3) feet; 3. 500-year (0.2 percent annual chance) flood elevation (if determined) plus two (2) feet; and, 4. elevation required by the AHJ for the location.

G. The Recipient shall provide an initial timeline and estimated reimbursement allocation schedule. Table SW-1, "Initial Timeline and Estimated Reimbursement Allocation Schedule" or other similar instrument as approved by the Division may be used.
