Requested Action:

In accordance with Section 62-2844(b), it is requested that the Board of County Commissioners adopt the attached Resolution and authorize the Chair to sign the Resolution releasing the Contract and Surety Performance Bond dated January 10, 2023, for Reeling Park North, Phase 5.

Summary Explanation and Background:

Reeling Park North, Phase 5 is located within the Viera Development of Regional Impact (DRI), east of Stadium Parkway between Spur Drive and Addison Drive. The public rights-of-way created by the plat are Banter Lane, Allure Drive, and a portion of Reeling Circle. The proposed plat contains 50 lots on 11.26 acres.

The Reeling Park North, Phase 5 plat received preliminary plat and final engineering plans on June 7, 2018, and final plat and contract approval on January 10, 2023. The developer posted a Surety Performance Bond for guarantee of the completion of the infrastructure improvements according to the approved plans.

Per Section 62-2809(b)(2), "Construction after final plat recordation: ...the applicant shall provide security required in Section 62-2844 for the performance of such construction..." Section 62-2844(a) states: "An applicant shall be required to secure its performance security of the construction required under this article by a surety bond, letter of credit, savings account, certificate of deposit or execution of a tri-party escrow agreement. Such security shall not be required if a certificate of completion has been issued for all the subdivision improvements prior to final plat recordation." Because the applicant chose to plat the subdivision prior to completion of construction, the applicant entered into a Contract with the Board and posted a Surety Performance Bond to guarantee the completion of the infrastructure improvements according to the approved plans.

As of March 8, 2024, the Reeling Park North, Phase 5 infrastructure improvements have been completed and we are in receipt of a two-year maintenance bond.
