Dept/Office:

Utility Services Department

Requested Action:

It is requested that the Board consider approval of a License Agreement between Florida Power & Light (FPL) and Brevard County for Reuse and Force Main Line at the Port St. John Wastewater Treatment Plant.

Summary Explanation and Background:

Brevard County Utility Services Department operates the Port St John Wastewater Treatment Plant (WWTP) located within the Florida Power & Light (FPL) corridor. In 1998, Brevard County signed into a 5-year license agreement with FPL to provide land to install an 8" reclaimed water line and a 6" force main. Since then, license agreement renewals between FPL and Brevard County have occurred every 5 years, per Board approval. This Department has requested with FPL to make this renewal period for 10 years with an option to terminate.

This agreement has been reviewed and approved by the County Attorney's Office and Risk Management.
