

Brevard County Board of County Commissioners

2725 Judge Fran Jamieson
Way
Viera, FL 32940

Legislation Text

File #: 3319, **Version:** 1

Subject:

Adopt Resolution and Release Performance Bond: Bridgewater North at Viera Subdivision - District 4
Developer: Lennar Homes, LLC

Fiscal Impact:

None

Dept/Office:

Public Works/Engineering

Requested Action:

In accordance with Section 62-2844(b), it is requested that the Board of County Commissioners adopt the attached Resolution and authorize the Chair to sign the Resolution releasing the Contract and Surety Performance Bond dated May 22, 2018 for the above referenced project.

Summary Explanation and Background:

The Bridgewater North at Viera subdivision is located within the Viera Development of Regional Impact (DRI) approximately 1.5 miles south of Wickham Road on the west side of Lake Andrew Drive. The proposed subdivision contains 207 residential lots on 147 acres.

The Bridgewater North at Viera subdivision received preliminary plat and final engineering plans on September 6, 2016, and final plat and contract approval on February 7, 2017. The developer posted a Surety Performance Bond for guarantee of the completion of the infrastructure improvements according to the approved plans.

Per Section 62-2809(b)(2), "Construction after final plat recordation: ...the applicant shall provide security required in Section 62-2844 for the performance of such construction..." Section 62-2844(a) states: "An applicant shall be required to secure its performance security of the construction required under this article by a surety bond, letter of credit, savings account, certificate of deposit or execution of a tri-party escrow agreement. Such security shall not be required if a certificate of completion has been issued for all the subdivision improvements prior to final plat recordation." Because the applicant chose to plat the subdivision prior to completion of construction, the applicant entered into Contract with the Board and posted a Surety Performance Bond to guarantee the completion of the infrastructure improvements according to the approved plans.

The approved plans allowed for the Developer to construct the two-inch SP-9.5 asphaltic pavement in two lifts at one inch each. The infrastructure and first lift were completed as of May 2, 2018. On May 22, 2018, the Board released the contract and bond as well as granted contract approval to guarantee the construction of

the second lift of asphaltic pavement.

As of August 17, 2021, the second lift of asphaltic pavement has been completed and has passed inspection. We are requesting the Board of County Commissioners adopt the attached Resolution to Release the Contract and Surety Performance Bond back to the Developer.
