Legislation Text

File #: 4899, **Version:** 1

Subject:

A Text Amendment to the Comprehensive Plan adding the Coastal High Hazard Area map to the Coastal Management Element X, and correcting scrivener's error in the Glossary Element XVI.

Fiscal Impact:

None

Dept/Office:

Planning & Development

Requested Action:

It is requested that the Local Planning Agency conduct a public hearing to consider a Text Amendment to the Comprehensive Plan adding the Coastal High Hazard Area map to the Coastal Management Element X, and correcting scrivener's error in the Glossary Element XVI.

Summary Explanation and Background:

Following the February 3, 2022 adoption of Comprehensive Plan Amendments associated with the 2017 Evaluation and Appraisal Report (EAR), the Department of Economic Opportunity (DEO) notified Brevard County that it was necessary to include a map or map series of the Coastal High Hazard Area (CHHA) in the Comprehensive Plan pursuant to F.S. 163.3178.

While DEO found Brevard's EAR-based amendments in compliance (Docket No. 17-03ER-NOI-05-01-(A)-I), dated 3/31/2022), the County was advised to adopt the most current CHHA map back into the Comprehensive Plan during the next large-scale or text comprehensive plan amendment cycle.

Staff has prepared a series of three (3) maps depicting the Coastal High Hazard Areas in the north, central and south portions of the County and is proposing the adoption of these maps into the Coastal Management Element of the Comprehensive Plan. The maps were created using the most current data provided by East Central Florida Regional Planning Council Regional Evacuation Study Program - Storm Tide Atlas.

Additionally, staff is proposing to correct a scrivener's error identified in the Glossary discovered following the adoption of EAR-based Comprehensive Plan Amendments. The correction will change "and" to "or" in a list of conditions under the definition of "Should".

Clerk to the Board Instructions:
